City Manager Update/ Water Update Gerente de la Ciudad pone al día la audiencia de los planes de cada departamento/ Actualización del Agua

City Manager, Michael Ciaravino said that for the month of June the Fire Department responded to three hundred calls including three building fires that were all ruled as accidental. The Fire Prevention Bureau has been busy performing commercial and rental inspections and for the month of May they completed twelve vacant inspections and one hundred seventy four commercial inspections. The violations totaled four hundred and seventeen for the month of June and for July they will continue with commercial inspections on a street by street basis until complete. The new Fire Boat has been delivered and training is currently underway. At this time we have enough firefighters trained to leave the boat in service for all shifts and since going into service on July 1st they have already handled five calls on the river. He reminded residents to report any open hydrants because an open hydrant without a sprinkler cap leaves us without enough hydrant pressure during a fire. The Department of Public Works has been handling a number of emergencies and plans are scheduled for paving of the streets that were outlined but over the weekend some sinkholes were discovered. One is at Washington and Colden Street which is causing the street to sink so we will need one hundred and twenty feet of new pipe to be installed and approximately eighty feet of roadway and that work is underway. We could go to an outside Contractor but that would cost a lot more money so

we want to perform as much of the work in-house as possible. At Grand and Broad Street a sinkhole was discovered as well as at Renwick and Colden Street. On Henry Avenue between Lander and Monument Street and on Carpenter and Third Street there are additional sinkholes and you will see work begin shortly in those areas. DPW has also been cleaning up properties and the School at Liberty and Renwick, which has been an eyesore for a long time now, and they hope to have a report on that soon. It has been in disrepair for a long time now and it is time to proceed forward. A notice went out many months ago to the owner that we will exercise our right to revert on that property so some progress has been made. There has been a lot of discussion about a couple of intersections in the City and the one at Liberty and First Street has been marked off with a *No Parking* area as well as other critical safety related improvements to make it safer. It is our goal to address the matters that citizens have brought to our attention. The Recreation Department has many items on the Agenda for tonight that relate to the Grant writing efforts led by Derrick Stanton and his team. The basketball courts at Delano Hitch were finally completed and they are going to continue to improve the Park by adding new bleachers as well as repairing the lights and running track. Summer Camp is in its third week and is going well. There is still room for additional campers so if anyone is interested just stop to register and the Camp will end on August 5th. The Pool is open to the public Monday through Saturday from 12:30 P.M. to 2:45 P.M. and from 3:30 P.M. to 5:45 P.M. and will close on August 26, 2016. In our age ten and under and twelve and under travel basketball teams we continue to play in the Summer League both in the Bronx and Brooklyn. The twelve and under team is four in four for the season while our ten and under team is one in six. He spoke about the work to bring us the best, cleanest and purist water they can to the City of Newburgh. For a number of weeks we have been drawing entirely off of the Catskills Aqueduct for our water and we have altered our chemical treatment profiles to utilize this water to deliver the purists, cleanest, healthiest and safest drinking water they can and his promise is that they will continue to do so. The water we are drinking has no PFOS or other emerging contaminates that we have become aware of and he will keep us up to date as we move forward. In reviewing the State Pollutant Discharge Elimination System (SPDES) he has learned that some of the critical streams that come from above Washington Lake at the Airport are misclassified. He doesn't know for how long this has been the case, at least for a decade, but any time there is a stream that goes to a drinking water source it should be a Class "A" Stream. What they have discovered is that all of the streams that relate to the Air National Guard and at Stewart Air Force Base are misclassified as Class "C" and Class "D" Streams. Class "C" and "D" Streams feed bodies of water that don't ultimately result in providing drinking water to a community. He sent a letter to the New York State Department of Environmental Compliance informing them about what we have discovered regarding this misclassification of tributaries to Newburgh's drinking water and he hopes to get that letter posted on our Website shortly. They are working with our partners at the State and hope to have progress in terms of the final decision for the reimbursement that will come so that there will be no surcharges to the residents for the drinking water that we are now drawing from the Catskills Aqueduct. There is a tremendous spirit of cooperation and he hopes that this continues moving forward. The next critical thing, in his opinion, is that this needs to be properly identified and designated as a Class "A" Stream. This may account in some ways with how this PFOS occurred in the first place because if it had been properly classified as a Class "A" Stream then some of the discharges may not have been allowed to occur. He informed everyone that on June 20th after we had conducted an investigation on the watershed, the State investigated a granite cutting business up by Route 300 as some of

the chemicals that have been identified in our water and we have not been able to determine the source. He is not a Chemist but what he has learned is that when you cut granite certain radioactive emissions occur and there is one contaminate called strontium which has been detected in previous water samples and we have asked the New York State Department of Environmental Control to examine the relationship between this granite cutting concern and some of the other contaminates that have yet to be identified in our drinking water. At some point we hope to go back to Washington Lake so as we discover these things we want to make the New York State Department of Conservation as well as the residents and City Council aware of it. There are a number of other items that we have asked for involving the investigation of our storm water outfalls feeding Washington Lake and the creation of an accurate map showing all the ways in which water runs downhill into Washington Lake. We are also asking the New York State Department of Health to assess what current threats may exist with our drinking water so that we know what concerns we need to attend to. This may involve training for local healthcare providers and appropriate laboratories to run the tests. These are not irrational concerns and we just want to rule out whatever possibilities exist. They will continue to work as a team to provide answers to all of our questions as they emerge and there will be additional updates. The City's Website will share both his correspondence to the various regulatory agencies in the State of New York as well as their responses as they come in.

COMMENTS FROM THE PUBLIC REGARDING THE AGENDA

Omari Shakur, City of Newburgh spoke about Item #6 for Certificates of Appreciation to the Police Department. We have events going on around the Country and they have been killing people. We had a couple of incidents here in the City of Newburgh the past couple of weeks. A young man was arrested here in Newburgh and there was an altercation. One of the family members said that they saw the video with the Police Chief and when this man was arrested he was punched and they used a Taser on him after he was put into handcuffs. That is excessive force so why isn't this Officer being disciplined? There have been two or three incidents in the community where officers have beaten people and if you let that happen we will be down here soon for another one of our children dying. This is illegal and our police are out of control. If the Police Chief saw that happen and he didn't discipline that Officer, then the Council needs to do their job and discipline him.

Mayor Kennedy asked for a Suspension of Rules of Order because there is a lot of passion around a topic that needs to be straightened out.

Councilwoman Abrams moved and Councilman Harvey seconded to suspend the Rules of Order.

Ayes – Councilwoman Abrams, Councilwoman Angelo, Councilman Harvey, Councilwoman Holmes, Councilwoman Mejia, Councilwoman Rayford, Mayor Kennedy –

CARRIED

Mayor Kennedy said that she would like to clear this issue up as soon as possible.

Rasheda Worth, Director of Cultural Affairs for Life Stations Centers of Excellence said that the Patterson we are speaking about has a brother who works for a team under the SNUG Program. After meeting with the mother and the brother they have come to the conclusion that there are no lawsuits being brought against the City. They were satisfied with information received regarding this incident. She fights for the community and she is for the truth and what is right. We have to make sure that in finding justice, fighting for justice and doing the right thing that we have to have understanding and clarification before we react. Sometimes we react without all of the facts. Life Stations is for the elevation and progression of Black men and Black families so trust her when she says there was no situation.

Councilman Harvey told Ms. Worth that he is just trying to get the facts. If there was a video and a situation where there was police brutality then it was unknown to him and his colleagues. They are fully aware of what is going on in our Country but as far as they know there is no issue with police brutality in the City of Newburgh in terms of the

Patterson case. If there is an issue beyond that then they want to hear about it.

Ms. Worth said that they would hear about it and she would probably be one of the people at the microphone. She is here tonight with the CCIP Team Program Manager. CCIP is the Community Crime Intervention Program and they are on the streets trying to bring down the violence. They are not political and they have no affiliation with the police department. They interrupt the violence in hot zones where a lot of the crime takes place and they are on call all the time. She added that Nicholas Patterson is the brother of the person who was arrested recently and they represent Nicholas. After speaking to Nicholas and his mother, going to the Hospital and speaking with Chief Cameron they are satisfied with the information that they collected.

Mayor Kennedy asked Ms. Worth if she saw the video.

Ms. Worth responded with a "yes".

Mayor Kennedy added that the family saw the video as well as the CCIP Team.

Ms. Worth noted that she and a member of the family, Nicholas Patterson, saw the video.

Karen Mejia said that this incident occurred on Wednesday and one of the things that she is proud of is that in the last two years we have made great strides to implement and put into place structures that are able to create a safe space for conversations that need to take place when incidents like this happen. We have the Police Community Advisory Board which is available to citizens to put in their concerns and under the leadership of Chief Cameron we have implemented body cameras. Someone reached out to her about this incident and her response was to let her find out from Chief Cameron. He then followed up and made sure that the family had been contacted and created a meeting to watch the video within a twenty four hour period. She also watched the video and any altercation is very difficult to watch but she was very proud of our Police Department and she is happy that Mr. Patterson is safe and sound with his family. As a community she asks that everyone take that leap of faith and know that we have systems in place that we can use such as the PCRAM Committee. There are still seats available on this Committee so if anyone has concerns or wants to be part of that they can reach out to the Council or City Manager's staff.

Ms. Worth said that she sat on that Board before and it is the best way to get your complaints in.

Mayor Kennedy added that we have this intervention program with the CCIP Team which is a grant that came from the State and we have intervention programs through the Police Department. We also have the Police Community Relations Advisory Board and it might not be perfect but we are working on it. She acknowledged that we had a Moment of Silence for all of those who died in senseless killings in Missouri, Baton Rouge and Dallas and there is a lot of passion around that but she hopes that we don't bring that violence into the City of Newburgh. Here in the City of Newburgh with this Council and this Administration the answer is that we have to work together because everyone here in this City is important. All of these children sitting here tonight are very important so the Council is committed to making sure that we have a safe city.

Cynthia Brunson, City of Newburgh said that she has lived here for fifty-four years and has never endured such hatred in this World that is going on today. There are police officers that are harassing innocent people. She pays her taxes and minds her business but when she sees someone in distress, she calls the police department for help. They came to her

house and harassed her Nephew for sitting on the porch where he lives. When she asked them what the problem is she was told, *"As long as he's here we are going to be here"*. *"If that's not harassment then I don't know what is."* When you go to make a complaint, they don't want to hear it. There are police officers who are very sarcastic with their mouths and if you try to get smart back with them then you get arrested. There are officers on the force that are bothered by the color of someone's skin and it's sad that we have to live like this. If we don't come together and do something about this then the same thing that happened in Dallas will happen here.

Councilwoman Abrams moved and Councilman Harvey seconded to return to Comments from the Public Regarding the Agenda.

CARRIED

Beatrice Harris, City of Newburgh questioned on item #'s 23, 25, 26, 27, 28 & 29. Most of these Grants are coming from the Orange County Youth Bureau but the one that stands out the most is the Youth Violence Prevention Initiative. If there was a Youth Violence Prevention Initiative, we would not have the highest rate of inner city youth violence. Many people here are concerned about their children and there have been fights, ambushes and a high rate of suspensions. With all of this money that is circulating around, is it truly helping our inner-city youth? Where is it going? According to her records the Orange County Youth Bureau has been supplying the City with multiple funds but nothing has changed. Hate and rage is growing in our children and when they become adults there will be crime. These children don't have much to look forward to in the City of Newburgh so make sure these grants are going to the right places.

A young resident of the City of Newburgh said that she is worried because she doesn't want anyone to get killed in the City of Newburgh.

Gabrielle Hill, 93 Ann Street, spoke on item #'s 24 and 25 regarding Grants. She is not sure what the detailed plans are but the crime doesn't seem to be reduced. When she grew up here in the City of Newburgh there was more police and community interaction. We need to make sure that there is a lot more interaction and there needs to be a connection. There also needs to be more money for our youth to have something to do. She is concerned about children that live downtown because all of the activities are uptown and a lot of these kids can't get there. Perhaps some buses could be donated to get these kids to the activities uptown or plan some more activities for the downtown area.

Sheila Murphy, City of Newburgh questioned item #'s 17, 18, 23, 24, 30, 31, 32, and 33. On #17, where is this money going? On #18, what did this Church do for the community? On #23 and 24, is it possible that this Grant could help some non-profit organizations and collaborate with the police to keep kids out of trouble? On #30, what did this Church do for the community? On #31, she has a problem with the Boys & Girls Club and a lot of people complained that the people in the City of Newburgh can't even go there. They used to have programs to help low income families send their kids to Camp but now it costs almost \$600.00 so why are we providing them with money when we have non-profit organizations that we are not giving anything to. On #32, who is Hudson Valley Paperworks and why are we giving them money?

Leonard Lee, Head Coach of the Hook Elite Boxing Club said in regard to item #23 that they service at-risk, less fortunate youth. They had an event last year called The Newburgh Boxing Championships at the Recreation Center but they have come up short this year so he is asking if the City can help them out. They are about \$3,000.00 short with the Awards so they are asking for some help. Five years ago he started with nothing but now they have represented the City of Newburgh in a lot of different states over the past few years. He is trying to keep this Newburgh Boxing Championship going but right now they don't have the funds to buy the Awards so they are asking for some help from the City.

Mayor Kennedy said that they should speak about this following the meeting to see what they can come up with but they have to follow the process and rules.

Councilwoman Rayford said that Mr. Lee has been doing this a long time and he needs not only financial support but also Council support. He does this from his heart with the kids in mind so we should help him.

A resident of the City of Newburgh spoke about item #31 and safety in Newburgh. It is summer time and the streets are dirty. The Park is dirty and the fish are dead so it stinks. We need to get it together because it's not about money it's about life. He wants to see more police visible at night and he complained about the Nurses at the Hospital leaving cigarette butts all over the ground. Newburgh used to be so clean and beautiful so we have to get it together.

Tharicia McZorn with Life Stations Center of Excellence is hearing a lot of people talk about money, prevention and crime and what we need to do for the community. With the CCIP Team we need the community to help the community. The CCIP Team is the Community Crime Intervention Team and they take citizens from the City of Newburgh who have been involved in some sort of activity where they have a record and put them back on the streets of Newburgh to do intervention prevention in high target areas where there is a lot violence. We need to start taking back our streets, doing for ourselves and come together as a community and then maybe we will start to see the money come in. They are out there when the gunshots are going off early in the morning and putting their lives on the line for our community. They take high risk individuals and try to mentor them. When you see the CCIP Team, SNUG (which is guns spelled backwards), support these people who are out in your community trying to save lives.

Ebony, City of Newburgh said in regard to the Boxing Club that they really need assistance with finances. He needs a lot of help and he is doing everything on his own. He picks up the kids and brings them back and forth and makes sure that they get home safe. He is very active and passionate about what he is doing in the community and she commends him but he needs a lot of support. In regard to the Police, we do need a little more support in the community with patrols and she would like to see them walking with their dogs or another officer to make sure that everyone is safe.

Cindy, City of Newburgh said that the Hook Elite Boxing Club started in a garage and Coach Lee takes money out of his own pocket. Many parents are not able to pay and they are not begging but it is sad to see how Newburgh has changed. We can't chastise our children anymore so they have no respect. They are only asking for help with the children.

Ms. Smith said in regard to Item #34 that this is her project and it is one step towards a bigger project. She wants to have a community event to show the history of Newburgh. She did research and came up with this idea to have this walking tour and is

asking the Council to help her make this a beautiful event for the City. She wants to share this event with everyone so that they can experience what she experienced because history is a story that deserves to be told.

The Pastor of New Bridges International Ministry said in regard to the Boxing Club that there are programs called *Cops and Kids* to help develop relationships and she feels that is what's missing. Once you have a relationship you can work with each other and we work with people because of who they are not their title. Children need to know how to work with people in other occupations and participate in programs to interact with police officers.

Brenda McPhail, City of Newburgh said that Mr. Lee's Boxing Club is part of her Church but this young man needs a bigger building because he deals with a lot of high risk kids that no one else wants to deal with. Next week Vacation Bible School will begin and he will bring all of his kids there to learn about Jesus. Newburgh needs to wake up because we have all kinds of problems around here. If we don't chastise our kids and make them respect then the police will. We need more role models for these kids because they imitate what they see.

There being no further comments this portion of the meeting was closed.

COMMENTS FROM THE COUNCIL REGARDING THE AGENDA

Councilwoman Abrams said to Ms. Smith that she loves this project. She and her friend, Mary McTamane, talked about getting something like this going so it has been needed for a long time. Thank you for this and she looks forward to doing it.

Councilwoman Angelo thanked Mr. Lee and noted that she has known him a long time. She told him that she will be going to the Championship and to keep up the good work.

Councilman Harvey heard all of these comments on the Agenda items as well as building human and professional relationships but most of the people who spoke don't understand the process of how things are done. Instead of talking with us they talked at us about all of the things that are going wrong in the City of Newburgh and referred to a lot of the Agenda items regarding grant money. Grant money is free money coming to the City but they didn't understand that this is money to help the people they were speaking about and then they left before we could respond. Most of the problem is that we get too caught up in the emotion and the passion but we don't know the process on how to get the money and funding to the right people. He commended the people who made comments and stayed but most of the people who spoke already left and that is part of the problem. You have to understand the process. Ms. Murphy spoke about Item #31 regarding the Boys and Girls Club and suggested that grant money be given to a non-profit organization but the Boys and Girls Club is a non-profit organization. If you read the resolution it is for support from the City Council so that they can get the grant money. If they understood the process then they would have stayed to try to get the results that they want. All we are doing is giving a

vote of support which is part of the process. If the public wants the Council to take their requests, then they have to understand the process so they can work together. Someone spoke about getting the police officers to patrol the streets on foot and he heard from a business owner complaining that the police weren't getting rid of illegal drug activity in front of his business. On one hand we are hearing that the police are harassing the Nephew of a resident while he is sitting on her porch and on the other hand we have business owners saying that they aren't doing enough so we have to look at what the solution is. There were a lot of complaints about the youth but Mr. Stanton is doing an excellent job with the Recreation Department. We just got the basketball courts completed and will soon be starting work on the skateboard park. The Armory is doing amazing work and they had the AAU this past spring along with the Zion Lions and the Newburgh Panthers. There are many activities coming through the Recreation Department and they have a Summer League going on right now for the youth yet people still say there is nothing going on for them. Some people say that there are not enough activities downtown and he agrees with that but Newburgh is only four square miles so it's not that far to walk from Liberty Street or South Street to the Rec. He has also seen that the Armory has some buses and he doesn't know the details but they do have transportation. He had a meeting with Mr. Kaplan about the Armory and told him about the youth activities that are going on with education and he wants to create an opportunity for Elementary School inner-city Newburgh kids to learn how to write code. He noted that his students are already learning how to code so why can't we get the NFA students to teach the Elementary School students how to code? He gave him the names of some people to contact and they just ordered about \$40,000 worth of technology in the last week. This opportunity will be for the inner-city youth to learn how to do computer coding and networking and our inner-city high school youth will teach the classes. On top of that, the high school students will earn \$12.00 to \$13.00 dollars an hour for the teaching. There are a lot of things going on with our youth that people aren't aware of and they are working hard to get the youth more involved. He told Ms. Smith that she has his support on the Walking Tour of African-American History.

Councilwoman Holmes said that as Councilman Harvey noted many people left who don't understand the Grant process. The Dutch Reformed Church is an eyesore and it needs to be restored. Some of these Grants were applied for last year that were not awarded. We don't have the money yet; they are just applying for it and we are supporting it. To Ms. Brunson she said that if anyone is being harassed by the Police they can go to Chief Cameron, Orange County or Albany. She added that with Derrick and the Armoy she has seen him driving that bus downtown picking up and dropping off people. She knows that they want a venue or space downtown but they just aren't there yet. She knows that Mr. Kaplan had a bus coming downtown to pick up children but they needed a parent or an adult to come with them and that wasn't happening. They are not a babysitting service. She told Mr. Lee that she supports his program and what he is doing with the kids but she is not sure what they can do. She hasn't spent any money out of her Budget and wonders if they could reallocate some of her money from Travel and Conference for the Awards. She told Ms. Smith that she appreciates the History Walking Tour because Newburgh has a lot of history that people don't even know about. She supports her program in any way that she can.

Councilwoman Mejia said that the History Walking Tour is very exciting and she loves the title, "In Washington's Shadow". In response to the Grants, there is a difference in letters of support versus us doling out money and we don't do that.

Councilwoman Rayford said in regard to Item #23 for the Youth Violence Prevention Initiative Award that the Newburgh Zion Lions has developed a relationship with the Police Department that is still coming together. Last month they had a Stop the Violence Event at NFA and the City youth participated in playing basketball games. They had dynamic speakers who were ex-gang member to speak to the youth and tell them that living in the streets and selling drugs is a bad thing. They are forming a relationship with the Police Department and Chief Cameron attends all of their meetings. On July 30th they are hosting a Stop the Violence Healing Ceremony asking people with families who have suffered violence that lead to death to come out to be recognized and heal. The relationship has already begun and it takes money to do a lot of things but the main priority is love and she believes that the Officers that we have here are not on the job for the money. We all make mistakes because we are human. She told Ms. Smith thank you and added that she will read a lot about her family. She added that when Katie spoke about the Budget and Councilman Harvey spoke about parking at Delano Hitch Park that we should not look at meters but a parking gate which will be timed along with cameras to track what goes on so that we will not be liable for any incidents there.

Mayor Kennedy said that the Police YPI is where they take young people to work with them for a week and build relationships. She went to one of the Graduations some time ago and asked one of the young people what they learned and their response was, "That the Police Officer is just like me." She agrees with Councilman Harvey that many people come here and make statements when they don't understand the process and the Agenda item. All of these items have nothing to do with the City giving out money. The State says that we have to apply for Grants so various organizations apply. It is a competition and the State wants to see that the people and the City are working together. If not, then the State isn't interested in giving any money. The County and the State give Grants as well as the Federal Government so all of these Grant applications that you see here are various opportunities for the Police Department, Recreation Department and other organizations in the City to apply for them. Maybe we have to work on our Agenda and have some kind of discussion so that in our Communications Section we explain what that group of applications is about to prevent everyone from speaking about it. This might help educate everyone on what is really happening and what the process is. In order to work together, we have to understand the situation. In regard to police community relationships, she knows that our Police Department is working hard and they are willing to visit your organizations and functions. They are committed to building relationships and we need help to build those relationships and make sure we have the facts before we accuse. She is happy to hear about the healing process ceremony that Councilwoman Rayford is planning as we need a healing and forgiveness process. We have had a lot of issues happen in this City over the past thirty-five, forty years that need to have the act of forgiveness so that we can move on. As long as we keep bringing it forward, we will not get where we want to go. The things that are going on in this Country give her heartache. The violence, insanity and stupidity is beyond her but here in the City of Newburgh we don't have to do it that way. She has long supported the Boxing Club and we as a City have allowed the use of our building free to them for the last three to four years. When it comes to money, we can't hand money to any organization as it is against State Constitution so it can't happen because it is taxpayer money. She thinks it would be worthwhile to have a conversation on this though as there is a business to the Boxing Club and it is associated with a religious organization so there are a lot of things involved. She commended Mr. Lee for what he is doing with these young people and maybe there is another avenue they can pursue if he is struggling. She gives the History Tour a high five. If we don't know where we came from,

we don't know where we are going and it is important to know whose shoulders we are standing on.

There being no further comments this portion of the meeting was closed.

Resolution No. 177 - 2016 - NYS Youth Violence Prevention Initiative Award

Councilman Harvey commended Chief Cameron and the City of Newburgh Police Department as well as Mr. Stanton for all that they are doing. A few weeks ago they had a Graduation and he was asked to be a key speaker. He sat and had dinner with everyone and had a wonderful experience. He saw a lot of our Newburgh City youth there who were a part of that Program and he felt honored to be invited.

Councilwoman Rayford said that she is a representative of the Newburgh Zion Lions and she understands that they are not qualified for the CDBG Grants but the with other Grants that the City is given will they be able to help the Organization with these series of Events for Stop the Violence?

Mayor Kennedy said that she believes this Grant money is earmarked for a specific activity. Almost all Grant money, when it's applied for, has a very specific function in order to get it.

Police Chief, Dan Cameron, said that this is specifically for the YPI Program.

Councilwoman Rayford asked what they do in this Program.

Police Chief, Dan Cameron responded that the kids and police officers spend a week together and do role reversals.

Councilwoman Rayford asked what children are they reaching?

Chief Cameron said that the last class was Newburgh Recreation Department basketball and before that was a group of kids from the Housing Authority. Prior to that it was an all girls group so it is from various groups in the City.

Mayor Kennedy said that Chief Cameron is talking about the same thing that Councilman Harvey attended two weeks ago.

Councilwoman Rayford said that when you write these Grants they already have it earmarked so is this like a reimbursement?

Corporation Counsel, Michelle Kelson said that certain Grant Programs tell you what you can use the money for. This is an existing program that the Police Department has been operating for which they are now getting a separate funding allocation. It used to be part of a larger Grant that the Police Department received and they are now getting this money separate and apart from that other money so that both programs can be run simultaneously without any diminishment in the services that are being provided.

Councilwoman Abrams said that there is no reason why Zion Lions as an organization couldn't be part of this.

Chief Cameron said that he could make recommendations for the next YPI Class.

Councilman Harvey feels it is also important to mention that as the Police Chief said there is a National Organization that our City Police Department is a part of and they receive funding through Federal Grants which they have to apply for and then allocate that specific

to the Grant.

Chief Cameron added that this was originally funded under the GIVE Program and the Center For Hope would fund part of the YPI, however, they are no longer able to do that anymore. We took GIVE money for our Budget process and took away from some of our other programs to be able to continue the YPI Program. The State saw that we were doing that and notified us of funding that was available to put towards this program. He noted that it is a National Program but the City of Newburgh has the most graduated classes.

Mayor Kennedy said to be clear that this is a Grant we are applying for which the State has asked us to apply for. Right now all we need is the Council's approval for the Police Department to receive this Grant.

NEW BUSINESS

Mayor Kennedy said in regard to the Boxing Club issue that they cannot just allocate money out of their Budget. For this current situation she asked for a name and number where people can make a donation to the Boxing Club for this Boxing Event that is coming up on August 6, 2016. Anyone who would like to help can send money to: The Boxing Club, C/O 401 Washington Street." Checks should be made out to "Hook Elite Boxing Club". This is a worthy cause to help out the youth of our City.

Councilman Harvey said that with the One Hundred Men for Newburgh they have already done some significant fundraising to address some of the violence. There is something called a, "Go Fund Me Account" and in just one months' time they fundraised about \$1500.00 so this is another option.

Councilwoman Abrams asked if they thought about teaming up with some of the Churches where they have large gyms that are not being used.

Councilwoman Mejia said that if it's tax deductible, they might be willing to give a little bit more. If it is under the Ebenezer Baptist Church Sports Ministry, then payment should be made out to the Church. She feels that would be the correct fiscal way to do.

Councilwoman Rayford asked if CDBG Funds could help them. The history that she has seen is that we will fund any organization that we like and it's not fair to our children. Every child matters no matter what sport they play or what area of Newburgh they are from. We have to support this organization and help our children. They shouldn't have to beg so the change begins with us. He is trying to do better but he needs help so we have to

help.

Councilman Harvey said that a lot of people bring up the Boys & Girls Club but they have several Grant writers which speaks to the process. If Mr. Lee needs help, then maybe we can help him with the process in applying for the CDBG Funds in that window of opportunity that all of the other Organizations have. Like it was stated earlier sometimes we get caught up in the emotion of it but it's the process and the paperwork that has to get done in that orderly fashion.

Councilwoman Rayford said that she understands that and she told Mr. Lee that she will help him write this out.

Deirdre Glenn, Planning & Development said that she supports the children in this community and they talked about having an equitable process and when programs come we should put out the call for proposals. That last time that was done was in 2013 and Council decided to cut all of the Grants down to \$5000.00 each. She told Mr. Lee that she and Mr. Stanton have already agreed to get together with him to discuss what can be done here because this is for a small amount.

Mayor Kennedy said that they have to have another discussion on the CDBG Funds at our next Work Session. We need to see where we are with our funding and where we are with that Skate Park because we set aside a large amount of money for that and it will soon be August as we are still sitting here.

There being no further New Business to discuss this portion of the meeting was closed.

OLD BUSINESS

Councilman Harvey asked for an update on the video surveillance and where we are with that.

Chief Cameron said that as far as funding we are still waiting to hear back from the Project Safe Neighborhoods Grant so he doesn't have an answer right now.

Councilman Harvey asked if all three are up.

Chief Cameron said that the one for the North side, which will be on Lutheran Street, is still being addressed.

Acting Comptroller, Kathryn Mack added that two of them have been powered and they are ready to go so they are doing work with DPW to get them ready for Central Hudson. She believes that two of them are ready to be functional shortly and the other ones are being prepared.

Councilman Harvey asked if she had a timeline on them because the summer is almost over.

Acting Comptroller, Kathryn Mack said she will look into it.

There being no further Old Business to discuss this portion of the meeting was closed.

PUBLIC COMMENTS REGARDING GENERAL MATTERS OF CITY BUSINESS

Roxie Royal, City of Newburgh said that a lot was said here tonight but we have to look at what is going on. Many people don't know the process because it is not explained to them. A lot of people want to run programs but they don't know how to run them. They want to do something but are not given the information on how to do it. They see money going to organizations and they know where it is needed. She is frustrated tonight because she sees several items here that Community Development is working with but how are they making their decisions? She is a member of the Board and they haven't had more than three meetings this year. She doesn't see why Zion Lions or the Newburgh Boxing Club couldn't ask for money. There is a process where you have to apply by giving the Community Development your plan on how you are going to spend this money and then it should go before the Board. She is also aggravated because she did not know that when she signed papers to still be on this Committee that it was only for one year. She figured it was for the next term. Now she hears that they may have been disbanded and she was not notified.

Mayor Kennedy told Ms. Royal to talk with Dierdre Glenn about what is going on there. It sound like we need some communication straightened out.

Tammy Ponder, City of Newburgh said that the last time she spoke about CDBG they talked about reappointment for a new term but the paperwork they received did not have a specific time noted. They assumed it was for another two year term and she stated then that if it was only for a few months then she was not willing to stay on it. At that time they told her that they would relook at it and get back to them but they never heard anything. Now it is strange to hear that Mayor Kennedy thinks they disbanded.

Mayor Kennedy said that she may be wrong about that.

Ms. Ponder continued that they had a small meeting in June and they said at that meeting that they were waiting for the other members to be chosen or added and that they would be notified but nothing has happened since then. The point still remains that they don't know what is going on with that Committee and they would like some clarification.

Mayor Kennedy said that this is a confusing situation and it needs to be added to the next Work Session.

Deirdre Glenn said that there is nothing on the Agenda tonight for CDBG. They were in the process of reconstituting the Committee and we had six or seven new people we were asking to serve. The last meeting they had was when they voted on the Budget and they still don't have the 2016 Grant.

Councilwoman Mejia thanked the CDBG Committee members for their time and service. It has been complicated because the City of Newburgh got flagged by HUD to do an Audit on how we were administering our CDBG Funds. We were taking funds from CDBG and giving \$1,000.00 here and \$1,000.00 there when we were questioned on who those programs were so they voted on a strategic, focused and targeted five year plan. The Committee actually took that into consideration and came up with the plan to get some of the funding for things such as the Skateboard Park. Since then the Committee has had different meetings on moving forward in the hope that we get final approval from HUD about all of the different changes that were proposed. She has also talked about the

community budgeting process where everyone can have a say in what programs get funded which is one of the things that has been under the microscope. Some of the Council participated in education sessions on how to use CDBG Funds in participatory budgeting because it makes it super transparent to the public with a voting process that takes place with the entire community. In that aspect, there is community engagement and internal capacity building that takes place and anyone can vote. For as long as she is serving she is going to push for the participatory budgeting for the CDBG funds versus going back to something that we got flagged on for doing what she calls the "*Peanut Butter Effect*".

Mayor Kennedy said that we have a whole CDBG discussion going on here in the middle of Public Comments and she has already asked that the CDBG issues be on for the next Work Session. Bring all of your questions and issues to the next Work Session and get it out on the table for discussion. There has been a big change and as Councilwoman Mejia just stated we came very close to losing our CDBG Funds so the focus has been on getting all of our tracking and such straightened out. This is a community issue and we need to understand it.

A resident at 85 Grand Street said that on the 18th of last month he went to the Park Concession Stand by the Stadium and can't fathom how it was permitted to open. There was dirt, grime and rat feces and there was no hot water or gas. The electrical panel was not labeled and circuits were popping left and right so how could anyone condone that place be opened? He was called to try to remediate some of these problems and doesn't know if they opened but they were not ready for it. As for the revenue issue, you have a large parking area and field at the Waterfront so why not utilize that space?

Mayor Kennedy stated, "*That is not our property*".

Beatrice Harris, City of Newburgh, said that she looked over the insert on PFOS and PFOA and it further proves her suspicions. Her Doctors have concluded that because she drank the City of Newburgh water she has two possible endocrine disorders that if left untreated can lead to her early demise. She asked if there is anything set in place for continued PFOS and PFOA awareness because she knows that she is not the only person who has lived in Newburgh for more than ten years. Her concern is that parents and their kids were drinking this water. She fought for the City to get funding and spoke to the New York State Department of Health and asked them, "What About Newburgh?" Maybe the reason why we have a bad reputation is because we are not getting the funding that we need. If she is suffering like this and she has only been here ten years, then she can't imagine how everyone else is feeling. Within ten years she went from a normally active person to using a cane and a walker and she might not wake up one day. It is a nightmare every day.

Brenda McPhail, City of Newburgh, addressed the CDBG issue. At one time she sat on the Committee when the Zion Lions and Hook Elite applied. They would look over the proposals and decide where the money was going to go. She doesn't think it has changed much you used to sit on the Committee for a two year term. The reason why HUD complained was because the proposals were for flowers in front of houses and such and it's not for that. It was for programs like Mr. Lee has and the Zion Lions.

There being no further comments this portion of the meeting was closed.

FURTHER COMMENTS FROM THE COUNCIL

Councilwoman Abrams announced that a new Hardware Store opened recently at 199 Broadway. She thanked Lilliam Harris who called her to talk about mosquitos and the Zika Virus and informed her that you can get a Mosquito Dunk for free at the Orange County Health Department. You put them in any standing water and they kill the mosquitos. Just call 1-888-364-4723 to get them, one per household, or you can go to 130 Broadway behind the Department of Motor Vehicles and thanks to Ms. Harris they will have one hundred of these to give out first come first serve. She welcomed the Liberty Street Bistro at the corner of Liberty and Washington Street and told Mr. Lee that they will see what they can do to get the funding and space that he needs.

Councilwoman Angelo announced that there will be a dinner for Ms. Odell Ross on Saturday night at the Lakeview Inn at the same time that the Mayor is being honored at Downing Dark. She asked for an update on the Skateboard Park and thanked Deirdre Glenn for many items on the Agenda tonight. Our International Festival is coming up and the bids are out. It will be in Recreation Park this year and she suggested that Mr. Lee and his Boxing Club could be part of it. We had a tremendous fireworks display on the Fourth of July.

Councilman Harvey said that he has been contacted by people in Poughkeepsie who are involved in Community Action and they are planning a Stop the Violence Peace March on July 23rd at 2:00 P.M. and they are asking for City of Newburgh residents and organizations to join them. On the One Hundred Men for Newburgh, we have about fifty men standing and we are growing. We had our Officer nominations and votes and there are a few women who are participating and helping out in different capacities. At the top of their Agenda at every meeting they do job announcements and training opportunities. He made an announcement a month or so ago about Local 417, The Iron Workers Union, and that they were looking for young men and women to apply for their Apprentice Program. Several did so and he got a call from a former student who got into the program as a paid Apprentice who will be joining the Tappan Zee Bridge Project. This young man's father was incarcerated his entire life and he is one of seven children so this job opportunity meant the world to him, his wife and his children. They are excited about economic empowerment and getting these young men jobs or training opportunities. Lastly he noted that Dr. Frances Spielhagen from Mt. St. Mary's College Adolescent Program is willing to partner with the One Hundred Men for Newburgh so that they will have the space and support from the College

Councilwoman Holmes thanked everyone for coming tonight. She noted that in Ward 4 at Ann and Mill Street "No Parking From Here to Corner" signs were installed making it a safer area. She told Mr. Lee to have faith and believe and in regard to CDBG she always felt that the non-profits should be able to get something because CDBG is for our poor and the children. We need it for our youth and even though we have a lot for them to do there is always room for improvement. She did not know anything about CDBG being dismantled but she told Mr. Lee that she is pretty sure he will get the support that he needs.

Councilwoman Mejia reminded everyone that City of Newburgh kicked off their Summer Film Series and for the next six weeks we will hold free outdoor movies with rain sites at the Newburgh Recreation Center. One of the things she is struggling with is why people

don't show up and how do we improve on that? Friday's Event had a relatively low number of participants and Saturday's Event was rained out so it had low participation as well. How do we get more people informed about all of the activities that are going on? The local Ward meetings for Ward 1 have been very successful and the next one will be on August 5th. She supports the non-profits and on July 23rd the Newburgh Steelers will be having their Community Day from 1:00 P.M. to 6:00 P.M. at the Recreation Home Field. Everyone has seen the headlines that we are having and she doesn't want anyone to take this the wrong way but it is important that as a community we are able to have the conversation that is taking place nationally. She doesn't want any of her brothers and sisters to be offended when she says that Black lives matter. One of the things we have to have is Hope in ourselves as a community and that as imperfect humans we are trying to do the impossible. There are no words to describe what we have gone through as a Nation but we are different here in the City of Newburgh and that's what she wants to hang on to. Bias and fear should not cost us our lives and anger, fear and biases should not overrule humanity. She thanked everyone for coming out tonight.

Councilwoman Rayford said that she has been on the Council since January 1st and she would like to see a better flag here. The beginning of this meeting tonight was led in a Prayer for the police but she would like to interject and include the families who recently suffered death in Dallas, Minnesota and Baton Rouge, Louisiana as we do not want to overlook them in our Prayers. In addition to the Mosquito Dunks that were mentioned earlier, we will be having a Lottery for rain barrels to collect water. She saw Mr. Aber at Court on the television this morning and she would like to see that we change the order of doing business in this Municipality by not allowing cash to be accepted anymore. It should only be checks, money order or cashier checks because money has been stolen from the taxpayer dollars and we can't afford any more. She thank everyone who participated in the Illumination Project as it was a great and huge event. She thanked Mayor Kennedy for all of her efforts in helping put this together. She reminded everyone that the Stop the Violence Healing Ceremony will be on July 30th and they are trying to reach out to families who have suffered death here in the City of Newburgh. This event will lead to National Night Out and she invited the whole community to come out for that on August 2nd. Someone spoke earlier about the police walking and riding through the community which they are doing but she is afraid to go out at night and advised everyone to be smart. Like someone else stated, when the lights go on then it's time to go in. She thanked everyone for coming tonight.

Mayor Kennedy thanked everyone for staying tonight through this long meeting. They covered a lot of topics and they will continue with the CDBG discussion at the next meeting because there are many pieces to that.

ADJOURNMENT

There being no further business to come before the Council the meeting adjourned at 11:00 P.M.

PURCHASE CONTROLS

TIGHTER CONTROL OVER SPENDING

Enforce purchasing policies for piece of mind

The WEX fleet card offers a suite of control and alert tools that let you know **where, when, what,** and **how much** is being spent. Managed through our industry leading **WEX Online®** account management tool, these powerful tools provide actionable purchase policy enforcement capabilities.

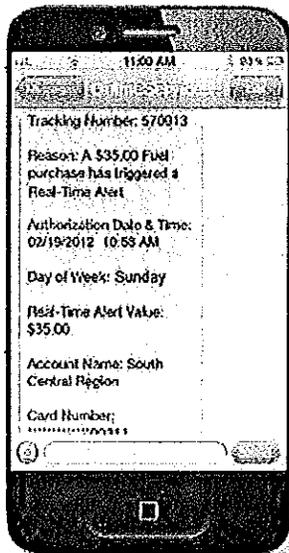

PRODUCT TYPE CONTROLS

When the card is swiped, merchant product codes automatically compare the purchase against pre-set card profile limits. If the product types are allowed, and the set limits have not been exceeded, we authorize the transaction, and the merchant completes the sale. If the card is beyond the limits, it will be declined.

You can set overall limits for all purchases for a specific time period — eg: daily, weekly, twice monthly, or monthly; and your fleet's total purchases for that period — transactions per period, dollars per period and gallons/units per period.

PUMP SHUT-OFF FEATURE

WEX now offers a powerful **pump shut-off feature*** to assist you with enforcement of policies. When a driver exceeds your pre-set limits, the pump will shut off. This feature is available at most major retail fuel brands.

REAL TIME ALERTS

This control generates an alert detailing a purchase that is beyond your pre-set alert values. Choose to be notified by email or text, and make quick decisions on how best to deal with the situation at hand.

CPAT COMMUNITY PROPOSAL FORM

Thank you for your interest in participating in APA's Community Assistance Program. As a priority of APA and its professional institute, AICP, the Community Planning Assistance Teams (CPAT) program focuses broadly on addressing issues of social equity, inclusion, accessibility, and sustainability in planning and development. CPATs seek to foster community education and civic engagement. The program is designed to bring planning resources and opportunities to communities with a demonstrated need for assistance and to strengthen the ability of local residents and other community stakeholders to influence or determine decisions that affect their quality of life. CPAT is a pro bono program, meaning that the program provides the time of senior-level planning experts and APA staff to a community without compensation. However, the community is expected to raise funds to cover travel expenses and accommodations.

When preparing your submission, please keep in mind that your project should be as focused as possible in scope. The scope of a CPAT's work is limited due to the constraints of time and resources provided by APA staff and the volunteer experts. While experts spend time preparing for a project before they arrive in the community and additional time completing project elements after they leave, actual time spent in the community is only three to five days, plus an initial visit by the Team Leader and APA staff to meet with stakeholders. A sample timeline for a typical CPAT project is provided in this form (section 12) along with a sample budget (section 9). Thorough preparation of briefing materials ahead of a Team's visit is a tremendous help, the work requested must be achievable within a limited amount of time.

Your proposal is used by APA to determine whether the project is an appropriate fit for the CPAT program. Please include as much relevant information and background as possible. APA's ability to commission a team of experts to successfully address the issues and needs of your community may be limited by the care and thoroughness of the submission. Proposals are reviewed as they are received. If your proposal is selected, project scheduling is determined on current capacity.

Send proposals to:
CPAT@planning.org

We encourage you to
contact APA staff about
preparing your proposal.

Email CPAT@planning.org

Or call 312.786.6359

Thank you for your interest
in the CPAT program!

PLEASE READ:

Your proposal must address each section in the same order with the same section headings as they appear below. You may, however, submit your proposal in any format style (font, spacing, margins, heading styles, embedded images, etc.). Please submit the completed proposal form, including an appendix with all supporting materials, i.e., letters of support, the primary contact's resume, and any multi-media resources. Submit the completed proposal via email to CPAT@planning.org. Please use a file hosting service if the file size is too large to email or we can set one up for you.

1. TITLE

Provide a short name for your proposal. For example, *Sampleville Transportation Project: Connectivity, Community, & Coordination*.

2. BRIEF SUMMARY

Provide a short standalone paragraph (3-5 sentences) summarizing and outlining the key points of your community's project/issue.

3. DESCRIPTION OF COMMUNITY AND ISSUES

This section will serve as the main body of your proposal. We encourage you to include images and maps to define the study area and highlight any key issues. The following guidelines and questions may help guide this section.

- Draw the boundaries of the study area on a map.
- Describe the issues affecting your community that influence or have led to the need for assistance. Include the degree to which the problem is recognized by leadership and the community, and the obstacles (social, political, economic, physical, etc.) to addressing and overcoming these issues.
- Describe how a CPAT can build on past efforts or advance current work within the community. Please describe any approaches used and the level of success they had or are having.
- What types of expertise are you most interested in receiving? For example: urban design, economic development, transportation, implementation, parks/open space/trails planning, etc.
- From your perspective, why would a team of expert planners from around the country provide a more effective result than hiring consultants or using other resources? Why is your community in need of pro bono services?

4. OUTCOMES

In this section, please discuss what your community hopes to achieve from receiving assistance. In general, CPATs are short-term community initiatives that frequently work to help build momentum around a community's vision or strategy. What plans do you have to maximize the opportunity and follow through with the project and the Team's work? The following questions should help guide your thoughts on this section:

- What are the major objectives of your project?
- How do you plan to leverage the Team's work to achieve the goals of the project and community?
- How will you attract local media and gain public attention for the project?
- What do you imagine will be different after the Team's work is completed?

5. STAKEHOLDERS

List the major stakeholders in your community such as government agencies, business owners, key property owners, community organizations, schools, etc. What is their role in this project? In what ways will they work with APA staff and the Team? What kinds of resources will they provide? Will they have representatives who meet with the Team during their visit? How will they follow-up after the project? Please include any relevant websites and contact information.

6. LETTERS OF SUPPORT

Please provide at least three letters of support from major stakeholders. Letters should state reasons why the project is important to the community and why APA's CPAT program is needed. Include the contact information of each letter's author using the format below in this section of the proposal. Attach the three letters as an appendix to your proposal.

Jane Doe
Director of Planning, City/Town
(555) 555-5555, jdoe@citytown.gov
1234 First Street, Suite 567

* Include all letters of support as an appendix.

7. COMMUNITY CAPACITY / PARTNERSHIPS

**This section is not required, but strongly encouraged, if possible.*

APA/AICP strongly encourages diverse community participation. Strategic partnerships build stronger community support and, ultimately, create more successful projects. Potential partners may include: local businesses, business improvement districts, the chamber of commerce, nonprofit organizations, among others.

A university, community college, or other educational institution may also serve as an important and strategic partner. Their participation may come in various forms, including the incorporation of the CPAT into a graduate-level studio or class project, student volunteers during the Team's visit (particularly those with research and design skills), and meeting space. Such a partnership is not possible for every community. Where possible, partners often include schools of urban and regional planning, urban design, architecture, landscape architecture, environmental studies, economics, business administration and other related disciplines. If you are planning any partnerships for your project, please include the following:

- Name of partner institution
- Partner contact information
- Description of partnership

8. PRIMARY CONTACT INFORMATION

The primary contact person will be the main community resource for APA staff and the Team. This person will be responsible for connecting APA staff and the Team to stakeholders and building community involvement. The primary contact person will help organize local logistics for the Team's visit, collect and organize requested materials for the Team, among other project tasks as needed. The person should include a resume in the appendix of the application. Include the following information in the body of the proposal.

- Primary Contact's Name
- Title
- Company/Organization
- Address
- Email
- Phone
- Short Description of how the contact represents or speaks for the interests of the community

** Please include the primary contact's resume in the appendix.*

9. BUDGET

Please draft a tentative budget for the project. While a budget will ultimately be developed in cooperation with APA staff, please provide basic information such as cost of meeting space, hotel accommodations, food and beverage, local transportation, printing, etc.

What kind of financial support or in-kind donations can your community provide for the project? (For example: meals, hotel accommodations, meeting space, work supplies, etc.). If funds are not available at this time, what fundraising strategies will you employ (local donations, partnerships, sponsorships, etc.)? In the past, communities have requested food and beverage from local businesses, meeting space has been provided by local governments, hotels and universities, hotels have given special rates to communities for Team members, etc.

Below is an example that should help get you started in preparing the project's budget. Any budget format is acceptable. However, please be as specific as possible and explain any in-kind services or donations in the budget.

10. LIST OF MULTI-MEDIA MATERIALS (INCLUDE ITEMS IN APPENDIX)

Please provide a list of any multi-media items provided as appendices in this section. Include any maps, pictures, planning documents, graphic illustrations, newspaper articles, tourist brochures, chamber of commerce materials, demographic information, history, form of local government, regional context, geographical/topographical information, etc. that will help give APA a better understanding of your community and the issues to address. Include all additions in the appendix of your proposal.

11. HOW DID YOU HEAR ABOUT CPAT?

Please tell us how you learned about APA's CPAT program, e.g., from a colleague, while browsing the APA website, during an APA event, from APA's e-newsletter – Interact, or some other way. We want to know.

12. AVAILABILITY

A Team's visit is typically three to five days. If there are any strategic dates for the Team's visit that may assist community participation or increase media attention, and avoid possible conflicts, please explain.

Below is a sample timeline of a typical project to help you think through any scheduling issues. Project timelines will be worked out with APA staff upon official selection. The four main stages are:

- Review and Selection by APA
- Initial Site Visit by Team Leader and APA Staff
- Full Team Visit to Community
- Follow-up and Final Report

See below for a more detailed timeline of a typical CPAT project.

13. EVALUATION OF PROPOSALS

APA staff is available to assist a community ahead of submitting a proposal. Upon fulfilling all of the needed elements of the proposal, APA staff will review it, then present it to the Community Planning Assistance Committee (comprised of members appointed by the AICP Commission) for approval. Submission contacts will be notified by APA staff within one month with either additional questions or a final decision.

Criteria considered when reviewing proposals:

- Clarity of issue(s) to be addressed; the scope of work is appropriately focused and well defined. *Can a group of five volunteer professionals address the issue(s) in three to five days?*
- Commitment and support for project by community and key stakeholders (including partnerships). *Is the timing right for a CPAT? Will the community participate?*
- Funding and ground support available for project. *Is the funding to cover all travel costs secured?*
- Primary contact person's demonstrated ability to coordinate project. *Does s/he have the experience and time to commit to the CPAT endeavor?*
- The community's level of need for pro bono assistance. *Is pro bono help truly needed?*

14. TERMS OF SUBMISSION

When submitting your proposal, you understand and agree to the following:

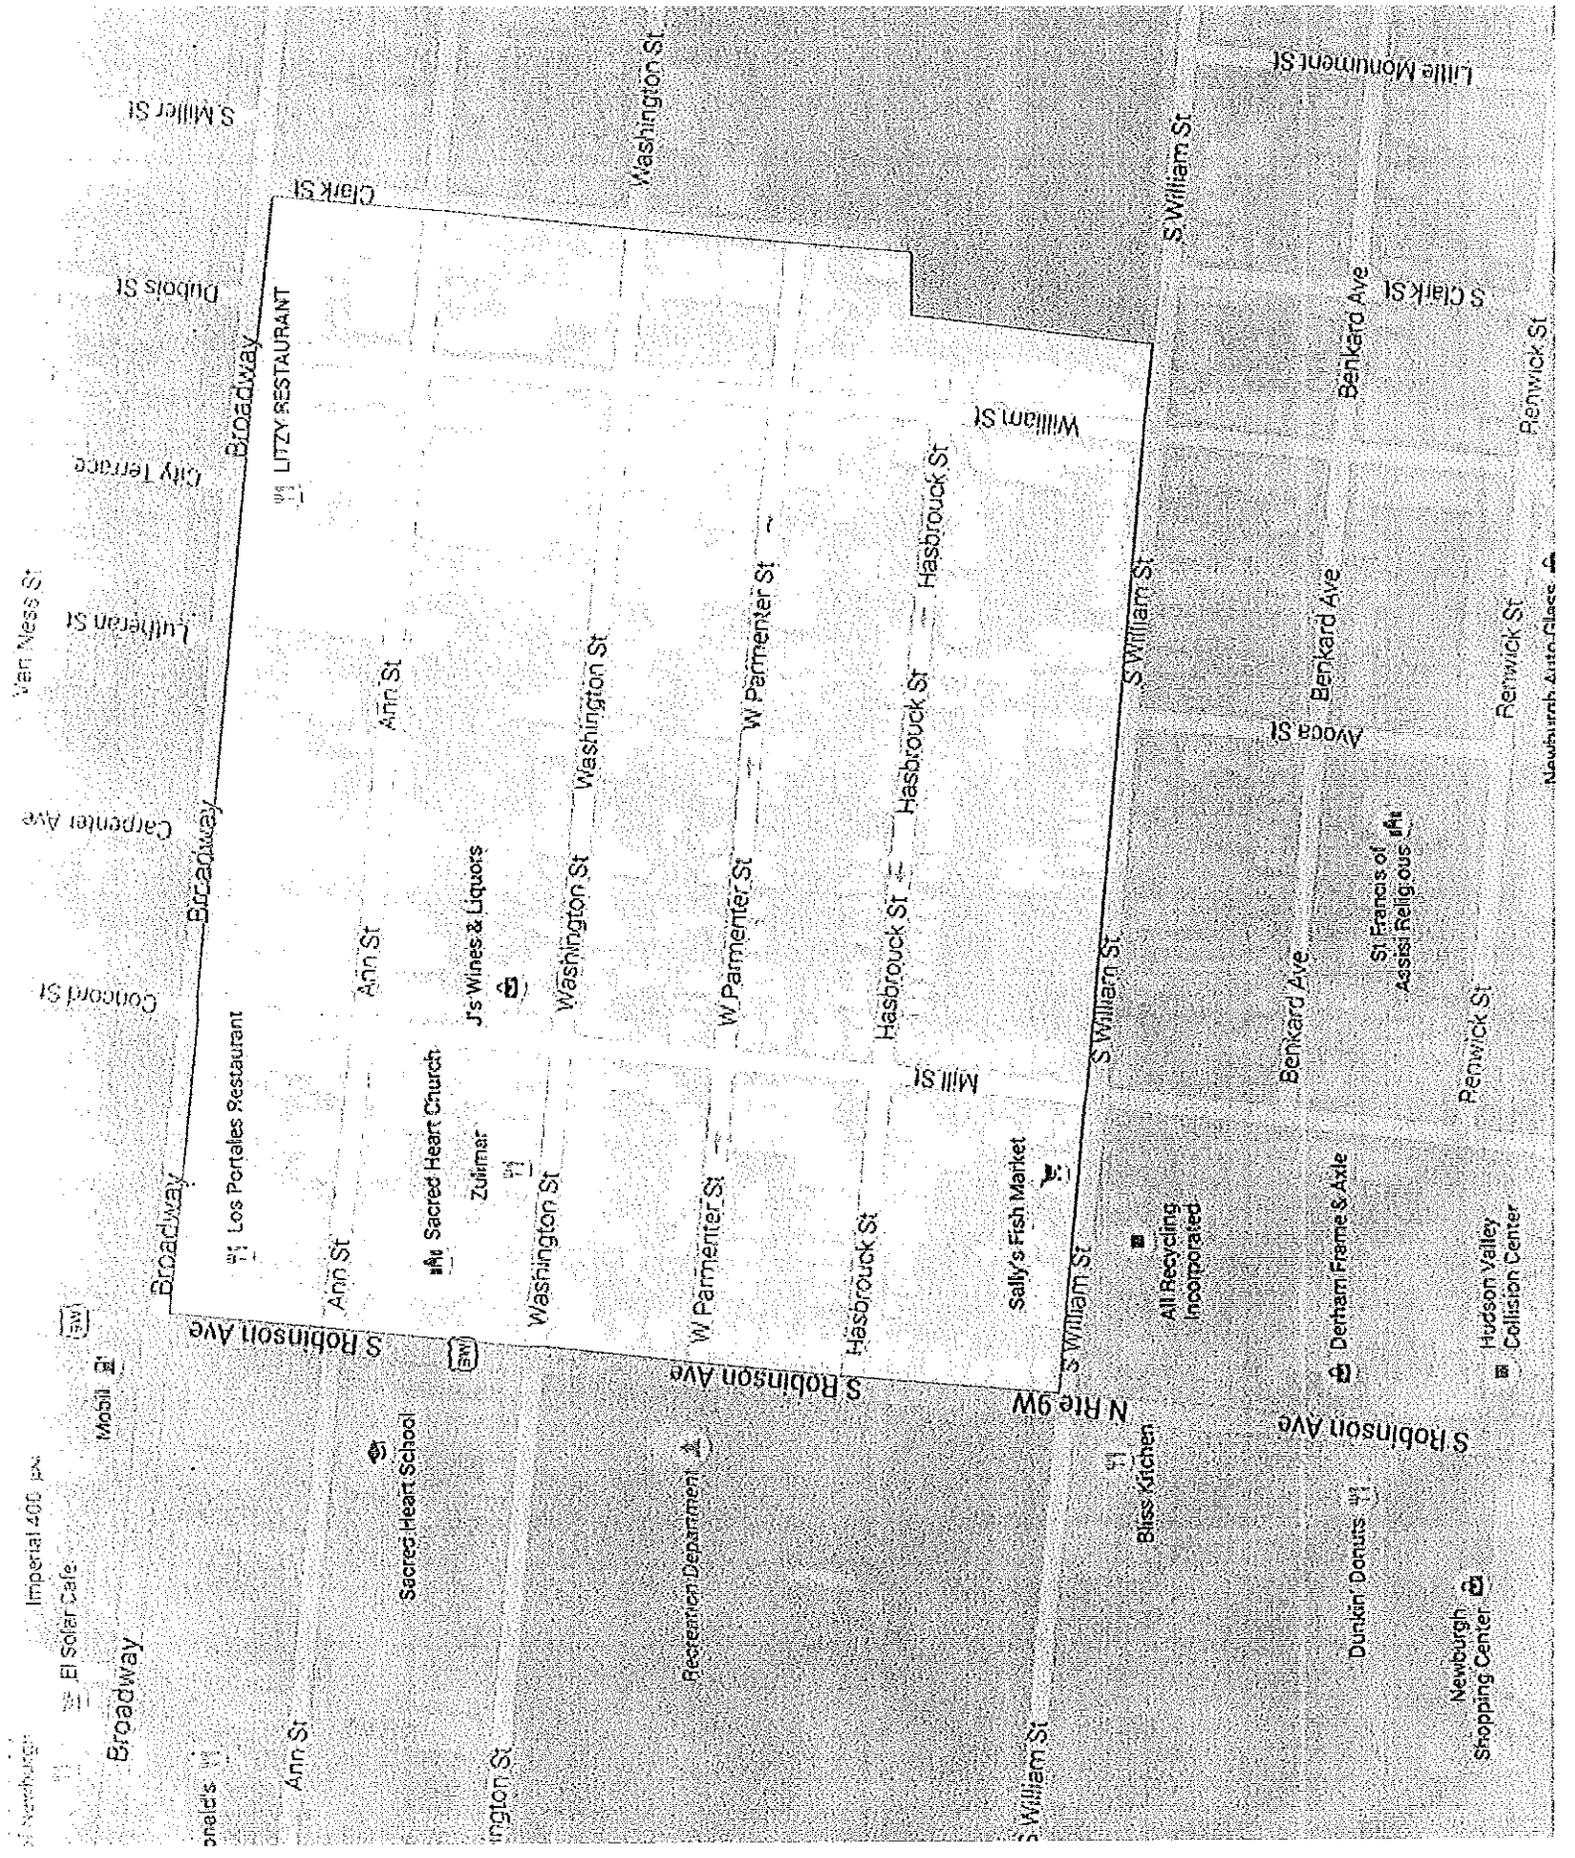

- I understand that the Community Planning Assistance Teams program is a pro-bono effort. While APA provides staff support and a team of subject matter experts, a substantial commitment from the host community in the form of financial resources or in-kind donations (lodging, food, meeting space, etc.) is required to sustain the program.
- I understand that, as the host community, I am responsible for developing briefing materials for the team of subject matter experts to review prior to, during, and after the Team visit, in consultation with APA staff.
- I understand that, as the host community, I am responsible for providing timely review and feedback needed by APA staff and the team of experts to finalize reports and other project-related materials.
- I understand that the volunteer Community Planning Assistance Team will provide objective, unbiased recommendations based on their consultation with the community. The community retains the authority to implement these recommendations as they see fit.
- APA seeks to foster lasting relationships with communities, from the beginning of the Community Planning Assistance Team process through implementation and follow-up

Thank you for your interest in the CPAT program!

Vertical Access LLC

Tel: 607 257 4049 / Fax: 607 257 2129

Proposal Date: June 10, 2016
Client: Ryan Biggs | Clark Davis
Client Contact: Jack Healy and Ali Church, for the City of Newburgh
Client Address: 257 Ushers Road, Clifton Park, NY 12065
Project Name Dutch Reformed Church Roof Truss Characterization and Evaluation
Project Address: 132 Grand Street, Newburgh, NY
VA Project No.: 16-1866

Project Purpose: Assist Ryan Biggs | Clark Davis with the assessment of the timber roof trusses by characterizing and evaluating the trusses.

Proposed Scope, Terms and Conditions:

Services: Vertical Access (VA) will perform its services consistent with the skill and care ordinarily applied by similar architects, engineers and technicians performing similar services at the same time and in the same locality. VA will provide a minimum of two personnel on site at all times when performing its services, and will provide all of the equipment necessary to conduct the following scope of services:

Base Scope of Work: Vertical Access will provide three technicians for a total of two days, to assist with the characterization and evaluation of the existing timber roof trusses over the nave of the Dutch Reformed Church, in Newburgh, NY. The team will include VA Partner, Kelly Streeter, PE. VA will provide up to four (4) 1000 watt theatrical lights, to help illuminate the interior of the nave and attic space.

Measure and record dimensions of one truss and develop a hand sketch of the resulting characterization of the truss member sizes, connection details, web angles and dimensions as well as bearing details.

Once the characterization is complete, survey additional trusses, as time allows. Include a subset of trusses above the intact ceiling. As directed by Ryan Biggs | Clark Davis, determine

the relative and if possible, the absolute degree of sag or deflection in the bottom chord of several trusses.

As part of the truss characterization, VA will provide up to four hours of live-feed video documentation. Live-feed video allows everyone on the project team to interact with Vertical Access technicians during the investigation. VA will provide two (2) copies of the narrated video documentation on DVDs as part of the project deliverables.

VA will not provide any construction services, including, without limitation, demolition, repair, altering, painting, cleaning, or masonry pointing.

Documentation: VA will document existing conditions using digital still color photography keyed to annotated drawings. To record existing conditions, VA will utilize its own Tablet PC Annotation System (TPAS[®]) that allows on-site annotation directly in AutoCAD. VA developed TPAS to input both graphical and numerical data directly into AutoCAD, on site, using tablet computers and digital cameras. More information about TPAS may be found on our website: <http://www.vertical-access.com/tpas.html>. Vertical Access' Conditions Glossary showing the material libraries used with TPAS can also be found on our website: <http://www.vertical-access.com/glossary.html>.

With TPAS, existing conditions data are noted graphically in AutoCAD, facilitating interpretation and diagnosis of fault patterns and failure mechanisms. In addition, numerical data pertaining to the faults identified, such as crack length and width are also recorded, in attribute tag format. Areas in disrepair or with other notable conditions will be photographed with the photographs keyed to the background image in the AutoCAD file.

Deliverables:

(1) Condition Survey Report: Following the survey, VA will prepare a *Condition Survey Report* based on its field observations. The report will include a written narrative summarizing the findings, color photographs of representative conditions, annotated elevation drawings and a spreadsheet listing the numerical quantities of each condition identified. The report will not include treatment recommendations or cost estimates.

VA will provide two (2) copies of the report in both digital and printed formats. Digital files will include a full *Condition Survey Report* in .pdf format, the Report Narrative in .pdf format, .jpg image files of all survey photographs, annotated elevation drawings in AutoCAD .dwg and .pdf formats and spreadsheet quantities in Microsoft Excel .xls format. Client may make additional copies of the *Condition Survey Report* from the digital files provided.

If additional work requires a separate mobilization, additional mobilization costs are billed at \$90/hour per person for travel time and direct transportation costs plus 10%.

Exclusions:

This Fixed Fee proposal does not include permitting for, or provision of, any sort of sidewalk protection or bridging, all of which, if required, will be provided by others as may be necessary to protect the public.

* Add 20% to the mobilization/demobilization, per diem and site services labor portions of the project fixed fee if services are performed between November 15th and March 15th, to allow for additional costs associated with winter restrictions, additional coordination and uncertainty due to weather conditions.

This Proposal will remain valid for a period of sixty (60) days and may need to be re-negotiated after that time.

Access to Designated Locations: Vertical Access (VA) personnel utilize industrial rope access techniques to allow hands-on access in order to perform a close visual examination and hammer-sounding of designated areas. Industrial rope access systems rely on double rope techniques to safely gain access to a variety of structures. Technicians will tie off ropes to structural members, and descend on two fixed lines to perform the investigation. In general terms, technicians are suspended on one rope termed the "work positioning" line with a redundant "fall protection" line used as backup.

Hands-off descent control and fall protection devices are integrated into site-specific rigging systems, along with industry-specific climbing and suspension harnesses.

In accordance with applicable law, Vertical Access is responsible for the safety of its own employees and will develop a site safety plan prior to beginning services at the building site.

Client Responsibilities:

(1) Client shall provide base drawings for use in the survey in a digital format that will clearly show all building locations designated for survey. AutoCAD drawings in .dwg format are preferred, but scanned drawings in .tif format are suitable.

(2) The Client shall, or, if applicable, shall require that the building owner, prevent its own employees and members of the public from walking or gathering below an area being surveyed by VA. Client recognizes that it may be necessary to close certain pedestrian paths, sidewalks, entrances and public spaces surrounding and within the building and will take all reasonable measures to do so. Client shall release VA from claims, and shall indemnify and defend VA from and against any claim of whatever kind and nature arising from Client's failure to perform its responsibility under this paragraph.

(3) Prior to scheduling the survey, the Client shall provide documentation of existing equipment and safety protocols for working in proximity to its rooftop equipment, if any, including but not limited to equipment that may emit radio frequency, microwave or other radiation.

Insurance:

(1) Vertical Access carries \$1,000,000 of Professional Liability insurance and \$1,000,000 of General Liability insurance, in addition to statutory requirements for Workers' Compensation and Disability coverage. A \$5,000,000 Umbrella policy is also in effect. Prior to providing any services on the site, VA will provide certificates of such insurance to Client. The certificates shall show Client as an additional named insured on the general liability and umbrella policies.

(2) Client shall provide \$2,000,000 in general liability insurance and shall name VA as an additional insured on the general liability policy. Client waives subrogation in favor of VA. At least one week in advance of VA's commencement of services at the site, Client shall provide certificates of such insurance to VA. Receipt of the certificates constitutes a condition precedent to VA's commencement of services at the site.

Limitation of Liability: To the fullest extent permitted by law, Project Client agrees to limit Vertical Access' liability to the Client for any and all injuries, claims, losses, expenses, or damages, arising out of or in any way related to the Project or this agreement from any cause or causes, to \$50,000.00 or the amount of compensation that VA receives under this Agreement, whichever is higher. This limitation of liability shall apply regardless of the cause of action or legal theory pled or asserted.

Mutual Indemnity: To the fullest extent permitted by law, Client and VA shall each hold the other harmless and indemnify the other for all damages and losses of whatever kind and nature arising under or arising out of this Project, but only to the extent that they are caused by the fault or negligence of the indemnifying party.

Consequential Damages: VA and the Client waive consequential or special damages for claims, disputes or other matters in question arising of or relating to the Project or this Agreement.

Project Schedule: Project schedule to be determined. Vertical Access will schedule the services only after receiving a signed proposal from Client or otherwise executing a written contract with Client.

Payment Schedule: Invoices are due and payable upon receipt. VA will charge interest at the rate of 6% per annum for any amount, not subject to a reasonable dispute, which is unpaid after forty-five (45) days.

Mr. Michael G. Ciaravino
Newburgh City Manager
City Hall - 83 Broadway
Newburgh, New York 12550

Dear Mr. Ciaravino,

Beginning in August, staff from the Preservation League of New York State have been engaged in conversations with staff from the City of Newburgh and others, regarding the future of the 1835, National Historic Landmark, Dutch Reformed Church. Like you, we have been concerned for some time about the deteriorating condition of this building of national importance. With the collapse of a significant portion of the barrel-vaulted ceiling over the nave in 2012, we think that the time is right to do whatever we can to see that this landmark is stabilized and protected. If we wait much longer, we fear the building may be lost.

There have been a number of assessments of the building's conditions over the years, as well as the completion of a historic structure report that was funded with a \$15,000 grant from the Preservation League in 2002. However, since the collapse of the ceiling, we feel that it is important to have an updated professional engineering assessment of the church's current conditions in order to determine the next steps in the building's stabilization.

In January we toured the church with an engineer from the firm of Ryan Biggs Clark Davis who is familiar with the structure. His primary concern was that the ceiling collapse could have further compromised the truss system of the ceiling, as well as adding excessive weight to the nave floor and mezzanine. These situations must be assessed and remedied before debris removal can take place and stabilization work commenced.

Ryan Biggs Clark Davis proposes the following:

1. Make interior and exterior observations and take measurements of existing conditions as required. A lift in the interior of the building will be used to observe each joint and member of the existing roof trusses, roof framing, and walls at truss bearing points. Observe the mezzanine framing and connections to the existing walls. If conditions are found during the investigation that require stabilization, Ryan Biggs Clark Davis will provide stabilization sketches.
2. Perform an analysis of the existing roof trusses using the loads prescribed in the current building code. The purpose of the analysis is to identify reinforcing needed to upgrade the trusses to current code snow loads and new ceiling loads, and address additional structural damage that may have been caused by the progressive ceiling collapse.

3. Provide a structural analysis of the existing walls and mezzanine structure. The connections of the mezzanine to the walls are of particular importance.
4. Prepare a preliminary report of all findings that will identify problems observed; recommend additional removals for areas displaying symptoms of possible problems; develop a priority list of concept-level repair work; prepare an opinion of probable construction cost for repairs identified.

The estimated cost for this work is not to exceed \$19,999.

We would like to secure funding from the City of Newburgh in order to contract with Ryan Biggs Clark Davis to complete this work. We believe that this conditions assessment will give us all a better understanding of the structure and what needs to be done in order proceed to the next step of stabilization.

I look forward to hearing your response and am available by telephone or email to discuss this matter further. Thank you again for all that you have done protect this important national landmark.

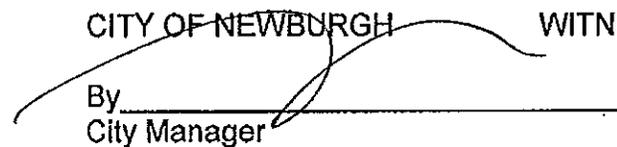

Sincerely,

Jay Di Lorenzo

STANDARD TERMS:

1. City of Newburgh acquired title to this property in accordance with Article 11 of the Real Property Tax Law of the State of New York, and all known rights of redemption under said provisions of law have been extinguished by the tax sale proceedings and/or as a result of forfeiture.
2. For purposes of these Terms and Conditions, parcel shall be defined as a section, block and lot number.
3. All real property, including any buildings thereon, is sold "AS IS" and without any representation or warranty whatsoever as to the condition or title, and subject to: (a) any state of facts an accurate survey or personal inspection of the premises would disclose; (b) applicable zoning/land use/building regulations; (c) water and sewer assessments are the responsibility of the purchaser, whether they are received or not; (d) easements, covenants, conditions and rights-of-way of record existing at the time of the levy of the tax, the non-payment of which resulted in the tax sale in which City of Newburgh acquired title; and (e) for purposes of taxation, the purchaser shall be deemed to be the owner prior to the next applicable taxable status date after the date of sale.
4. The property is sold subject to unpaid school taxes for the tax year of 2015-2016, and also subject to all school taxes levied subsequent to the date of the City Council resolution authorizing the sale. The purchaser shall reimburse the City for any school taxes paid by the City for the tax year 2015-2016, and subsequent levies up to the date of the closing. Upon the closing, the property shall become subject to taxation and apportionment of the 2016 City and County taxes shall be made as of the date of closing. Water and sewer charges and sanitation fees will be paid by the City to the date of closing.
5. **WARNING: FAILURE TO COMPLY WITH THE TERMS OF THIS PARAGRAPH MAY RESULT IN YOUR LOSS OF THE PROPERTY AFTER PURCHASE.** The deed will contain provisions stating that the purchaser is required to rehabilitate any building on the property and bring it into compliance with all State, County and Local standards for occupancy within (18) months of the date of the deed. Within such eighteen (18) month time period the purchaser must either: obtain a Certificate of Occupancy for all buildings on the property; make all buildings granted a Certificate of Occupancy before the date of purchase fit for the use stated in such Certificate of Occupancy; or demolish such buildings. The deed shall require the purchaser to schedule an inspection by City officials at or before the end of the eighteen (18) month period. If the purchaser has not complied with the deed provisions regarding rehabilitation of the property and obtained a Certificate of Occupancy or Certificate of Compliance by that time, then the title to the property shall revert to the City of Newburgh. The deed shall also provide that the property shall not be conveyed to any other person before a Certificate of Occupancy or Certificate of Compliance is issued. A written request made to the City Manager for an extension of the eighteen (18) month rehabilitation period shall be accompanied by a non-refundable fee of \$250.00 per parcel for which a request is submitted. The City Manager may, in his sole discretion and for good cause shown, grant one extension of time to rehabilitate of up to, but not to exceed, three (3) months. At closing, the purchaser will be required to register the property and remit the vacant property fee. It is the sole responsibility of the purchaser to redevelop such parcel in accordance with same.

8. All purchasers are advised to personally inspect the premises and to examine title to the premises prior to the date upon which the sale is scheduled to take place. Upon delivery of the quitclaim deed by the City of Newburgh to the successful purchaser, any and all claims with respect to title to the premises are merged in the deed and do not survive.
9. No personal property is included in the sale of any of the parcels owned by City of Newburgh, unless the former owner or occupant has abandoned same. The disposition of any personal property located on any parcel sold shall be the sole responsibility of the successful purchaser following the closing of sale.
10. The City makes no representation, express or implied, as to the condition of any property, warranty of title, or as to the suitability of any for any particular use or occupancy. Property may contain paint or other similar surface coating material containing lead. Purchaser shall be responsible for the correction of such conditions when required by applicable law. Property also may contain other environmental hazards. Purchaser shall be responsible for ascertaining and investigating such conditions prior to bidding. Purchaser shall be responsible for investigating and ascertaining from the City Building Inspector's records the legal permitted use of any property prior to closing. Purchaser acknowledges receivership of the pamphlet entitled "Protecting Your Family from Lead in Your Home." Purchaser also acknowledges that he/she has had the opportunity to conduct a risk assessment or inspection of the premises for the presence of lead-based paint, lead-based paint hazards or mold.

The entire purchase price and all closing costs/fees must be paid by money order or guaranteed funds to the City of Newburgh Comptroller's Office on or before October 14, 2016. *The City of Newburgh does not accept credit card payments for the purchase price and closing costs/fees. The City is not required to send notice of acceptance or any other notice to a purchaser.* At closing, purchaser, as grantee, may take title as a natural person or as an entity wherein purchaser is an officer or managing member of said entity. The City Manager may, in his sole discretion and for good cause shown, grant one extension of time to close title of up to, but not to exceed, sixty (60) additional days. No request shall be entertained unless in writing, stating the reasons therefor, and unless accompanied by a fee of \$250.00 per parcel for which a request is submitted. The fee shall be in addition to all other fees and deposits and shall not be credited against the purchase price and shall not be returnable. Any additional request made thereafter shall be made in writing and placed before the City Council for their consideration.
12. In the event that a sale is cancelled by court order, judgment, the Comptroller or the Newburgh City Council, the successful bidder shall be entitled only to a refund of the purchase money paid with interest. Purchaser agrees that he shall not be entitled to special or consequential damages, attorney's fees, reimbursement for any expenses incurred as a result of ownership, improvements of property, or for taxes paid during period of ownership, and this agreement by the purchaser is a material condition of the sale.
13. Sale shall be final, absolute and without recourse once title has closed and the deed has been recorded. In no event, shall City of Newburgh be or become liable for any defects in title for any cause whatsoever, and no claim, demand or suit of any nature shall exist in favor of the purchaser, his heirs, successors or assigns, against City of Newburgh arising from this sale.
14. Conveyance shall be by quitclaim deed only, containing a description of the property as it appeared on the tax roll for the year upon which the City acquired title or as corrected up to date of deed. The deed will be recorded by the City upon payment in full of the purchase price, buyer's premium, and closing fees/costs. Possession of property is forbidden until the deed is recorded conveying title to the purchaser. **Title vests upon recording of deed.**
15. Upon closing, the City shall deliver a quitclaim deed conveying all of its right, title and interest in the subject property, which deed shall be drawn by the City Corporation Counsel. The City shall not convey its interest in any street, water, sewer or drainage easement, or any other interest the City may have in the property. The City shall only convey that interest obtained by the City pursuant to the judgment rendered in an *in rem* tax foreclosure action filed in the Orange County Clerk's Office.
16. The description of the property shall be from the City of Newburgh Tax Map reference or a survey description certified to the City of Newburgh and provided to the City Corporation Counsel by the purchaser at least ten (10) days in advance of closing title and approved by the City's Engineer.

17. Evictions, if necessary, are solely the responsibility of the successful bidder after closing and recording of the deed.
18. By acknowledging and executing these Terms & Conditions, the purchaser certifies that he/she is not representing the former owner(s) of the property against whom City of Newburgh foreclosed and has no intent to defraud City of Newburgh of the unpaid taxes, assessment, penalties and charges which have been levied against the property. The purchaser agrees that neither he/she nor his/her assigns shall convey the property to the former owner(s) against whom City of Newburgh foreclosed within 24 months subsequent to the auction date. If such conveyance occurs, the purchaser understands that he/she may be found to have committed fraud, and/or intent to defraud, and will be liable for any deficiency between the purchase price at auction and such sums as may be owed to City of Newburgh as related to the foreclosure on the property and consents to immediate judgment by City of Newburgh for said amounts.

Orange County Children & Family Services Plan (CFSP) Narrative

Demonstrate the local need in the Life Area(s) you identified on the previous page. Include local data, including statistics, and cite data sources. 100 word maximum.

Based on data from NICHE.com Inc., the Public School Review, and the Newburgh Enlarged City School District (NECSD) most recent New York State Report Card, the percentage of students in the NECSD graduating from high school is 68%, as opposed to 86% in the state. Additionally only 50% of our students district-wide are proficient in reading and math. That coupled with the fact that 58% of our students are eligible for free lunch and another 10% are eligible for reduced lunch makes this community one that is in great need for academic, as well as, health education.

Describe your target population including but not limited to age range, gender, school district(s), community(s), risk and protective factors, and other important characteristics. 100 word maximum.

Our target population is boys and girls in grades 1st through 6th who reside in the Newburgh Enlarged City School District. The Newburgh Enlarged City School District is made up of 75% minority students, in comparison to the New York State average of 52%. 45% of the student body are from households where Spanish is the primary language, which attributes to young students not fully grasping a complete understanding of the foundations of reading and math or receiving assistance at home from their parents, who are non-English speakers themselves.

Demonstrate how your program will address Major Theme(s) and/or Strategies outlined in the CFSP (Part III). Link specific program activities to specific themes and/or strategies. 500 word maximum.

Our Summer Playground is a day camp, which not only gives children the opportunity to enjoy recreational activities, it also bridges the educational gap between the end of the school year in June and the beginning of the new year in September. On an average day, campers will start the day with basic reading and math skills in order to keep the fundamentals fresh in their minds. Additionally in the morning, campers will spend an hour of physical activity, swimming at our pool. In the afternoons, the campers will have a chance to participate in electives. The electives will be comprised of science, connects (engineering), healthy eating (culinary arts), video productions, and the arts (kids got talent). Also during the 6-week camp, we will take the campers on a total of 11 trips that are fun, challenging, and educational.

<p>Physical & Psychological Safety (Do not exceed the space allotted)</p> <p>Safe and health-promoting facilities; practices that increase safe peer group interaction and decrease unsafe or confrontational peer interactions.</p>	<p>Our summer playground offers a safe, nurturing, environment where parents can feel comfortable dropping off their children to participate in the programs. We do not tolerate any unsafe behavior, fighting, bullying etc. Our camp staff monitor our campers closely to make sure everyone is safe.</p>
<p>Appropriate Structure (Do not exceed the space allotted)</p> <p>Limit Setting; clear and consistent rules and expectations; firm enough control; continuity and predictability; clear boundaries, and age appropriate monitoring.</p>	<p>Our summer camp is broken down by age so there is less of a chance of injury due to older campers playing with younger campers, as well as reduced chance for bullying from older campers to the younger campers. We have a clear set of rules and behaviors that are entrenched in our counselors during their training, who in turn will go over the rules on the first day of camp and reinforce them through the entire six weeks. These rules are echoed by the camp director and all of the Recreation Staff and vendors participating in our camp.</p>
<p>Supportive Relationship (Do not exceed the space allotted)</p> <p>Warmth; closeness; connectedness; good communication; caring; support; guidance; secure attachment, and responsiveness.</p>	<p>All of our Recreation Staff and counselors are trained to interact with all of the campers, gaining their trust so that each camper feels secure and cared for, but at the same time they know there are rules and they have to be followed. All information about the our summer camp will be communicated by counselors to the campers and/or parents and also posted on the program's website for wider distribution.</p>
<p>Opportunities to Belong (Do not exceed the space allotted)</p> <p>Opportunities for meaningful inclusion, regardless of one's gender, ethnicity, sexual orientation, or disability; social inclusion, social engagement, and integration; opportunities for socio-cultural identity formation; and support for cultural and bicultural competence.</p>	<p>All of our programs at City of Newburgh Recreation are open to all races, religions, genders, ethnicities, and sexual orientations.</p>

<p>Support for Efficacy and Mattering (Do not exceed the space allotted) Youth-based; empowerment practices that support autonomy; making a real difference in one's community; and being taken seriously. Practices that include enabling, responsibility granting, and meaningful challenge. Practices that focus on improvement rather than on relative current performance levels.</p>	<p>Opportunities for the empowerment of campers will be available throughout the camp. This can come in the form of making a camper responsible for their group during clean-up, campers ensuring that they have their camp shirts on trip days and bathing suits during pool days, or having more experienced campers assisting camp counselors.</p>
<p>Opportunities for Skill Building (Do not exceed the space allotted) Opportunities to learn physical, intellectual, psychological, emotional, and social skills; exposure to intentional learning experiences, opportunities to learn cultural literacy, media literacy, communication skills and good habits of mind; preparation for adult employment, and opportunities to develop social and cultural capital.</p>	<p>Our camp provides many opportunities for skill building. Besides learning the fundamentals of literacy and science, campers will have the opportunity to choose from electives such as healthy eating, video production, and kids got talent. Campers will also attend 12 trips that include a museum, Lego Land, a water park, Medieval Times, etc. Opportunities to learn and experience new things will be available for the campers in an abundance.</p>
<p>Integration of Family, School and Community Efforts. (Do not exceed the space allotted) Concordance; coordination and synergy among family, school and community.</p>	<p>We are opening up our camp counselor and academic vendor positions to teachers and students in the Newburgh Enlarged City School District (NECSD), as well as, education majors in Mount Saint Mary College, SUNY Orange, New Paltz, and Marist. He will conduct daily spot checks of the camp focusing on the published schedule, as well as, safety and implementation of camp rules. The Orange County Health Department will conduct a pre-inspection of the camp and an additional inspection during the camp. The camp director will be versed on the state requirements for summer camps and ensure that all policies and procedures are strictly adhered to and documented when required. All campers will sign in and out each day and all incidents will be documented and submitted to the Recreation Director for disposition.</p>
<p>Evaluation Methods (Do not exceed the space allotted) Process to determine the value or amount of success in achieving a pre-determined program or operational goal. Evaluations can identify program strengths and weaknesses to improve the program, and verify if program is running as planned.</p>	<p>Since this will be our first time conducting this camp in this form, we will provide parents, counselors, vendors, and campers with a survey featuring multiple choice and open-ended questions. The Recreation Director will use this as the baseline for conducting future camps.</p>

Orange County Children & Family Services Plan (CFSP) Narrative

Demonstrate the local need in the Life Area(s) you identified on the previous page. Include local data, including statistics, and cite data sources. 100 word maximum.

With a crime rate of 48 per one thousand residents, Newburgh has one of the highest crime rates in America compared to all communities of all sizes - from the smallest towns to the very largest cities. One's chance of becoming a victim of either violent or property crime here is one in 21. Within New York, more than 98% of the communities have a lower crime rate than Newburgh. In fact, after researching dangerous places to live, NeighborhoodScout found Newburgh to be the 14th most dangerous city in the United States. Additionally, a national study conducted by YMCA of the USA found that teenagers who are unsupervised during the afterschool hours of 3:00 to 6:00p.m. are more likely to engage in risky behaviors than youth who are supervised by a parent or another adult or who are involved in structured activities during those hours. These behaviors include substance use and abuse, sexual activity, and smoking, among others. In addition, youth who do not spend time in afterschool activities are 37% more likely to become teen parents than those who participate in afterschool programs.

Describe your target population including but not limited to age range, gender, school district(s), community(s), risk and protective factors, and other important characteristics. 100 word maximum.

Our target population is boys and girls ages 14-19 years who reside in the City of Newburgh and the Newburgh Enlarged School District. The large majority of this population is from low income, single-parent households, who are prime targets for gangs and other negative organizations.

Demonstrate how your program will address Major Theme(s) and/or Strategies outlined in the CFSP (Part III). Link specific program activities to specific themes and/or strategies. 500 word maximum.

The Positive Image Teen Program is designed to promote health and personal development for high school-aged youth. The program is comprised of two 10-week sessions (Fall/Spring) during the school year and helps teens navigate the challenges of their high school years and prepares them for the independence and responsibilities that they will encounter as young adults. The program will incorporate developmentally appropriate, collaborative learning strategies to help students achieve competency in the skills that have been shown to prevent substance use, violence, and other health risk behaviors. Through this program we aim to reach between 40-80 teens, in grades 9th – 12th. The program will meet on Friday, Saturday, and Sunday for 10 weeks. Each week the participants will attend a class designed to strengthen their abilities in the following areas: personal self-management skills, general social skills, drug resistance skills, financial management, culinary arts, and physical fitness.

The Positive Image Teen Program is designed to promote health and personal development for high school-aged youth. The program is comprised of two 10-week sessions during the school year and helps teens navigate the challenges of their high school years and prepares them for the independence and responsibilities that they will encounter as young adults. The program will incorporate developmentally appropriate, collaborative learning strategies to help students achieve competency in the skills that have been shown to prevent substance use, violence, and other health risk behaviors. Through this program we aim to reach between 40-80-teens. The program will meet on Friday, Saturday, and Sunday for 10 weeks. Each week the participants will attend a class designed to strengthen their abilities to make healthy

8 Features of Positive Youth Development

Features of Youth Development Settings (School, Home, Community)	How does program address each Feature of Positive Youth Development Settings? (include policies, procedures, etc.)
<p>Physical & Psychological Safety (Do not exceed the space allotted) Safe and health-promoting facilities; practices that increase safe peer group interaction and decrease unsafe or confrontational peer interactions.</p>	<p>Our program offers a safe, nurturing, environment where parents can feel comfortable dropping off their children to participate in the program. We do not tolerate any unsafe behavior, fighting, bullying etc. Our staff monitors our participants closely to make sure everyone is safe.</p>
<p>Appropriate Structure (Do not exceed the space allotted) Limit Setting; clear and consistent rules and expectations; firm enough control; continuity and predictability; clear boundaries, and age appropriate monitoring.</p>	<p>Our program is limited to high-school age children (14-19), so there is less of a chance of injury due to older children playing with younger children. This also allows instructors and activity specialists, to provide age-based classes and activities and reduces the incidents of bullying from older children to the younger ones. We have a clear set of rules and behaviors that are entrenched in our staff training, who in turn will go over the rules at their first meeting with the children.</p>
<p>Supportive Relationship (Do not exceed the space allotted) Warmth; closeness; connectedness; good communication; caring; support; guidance; secure attachment, and responsiveness.</p>	<p>All of our staff are trained to interact with all of the children. This allows staff to gain the trust of players, who in turn feel secure and cared for. However, we still enforce published rules and regulations for the good order of the program that all children must follow. All information about the program will be communicated by our staff to the children and/or parents, and also posted on the program's website for wider distribution.</p>
<p>Opportunities to Belong (Do not exceed the space allotted) Opportunities for meaningful inclusion, regardless of one's gender, ethnicity, sexual orientation, or disability; social inclusion, social engagement, and integration; opportunities for socio-cultural identity formation; and support for cultural and bicultural competence.</p>	<p>The City of Newburgh is fortunate to have people from a multitude of races and cultures live within its borders. All of our programs at City of Newburgh Recreation are open to all races, religions, genders, ethnicities, and sexual orientations; without question.</p>

<p>Positive Social Norms (Do not exceed the space allotted) Rules of behavior, expectations, injunctions, ways of doing things, values and morals, and obligations for service.</p>	<p>Our teen program offers rules for the good order and discipline of the program, as well as the individual expectations of participants. These rules and expectations are entrenched in our staff in turn pass them on to the children during daily interactions.</p>
<p>Support for Efficacy and Mattering (Do not exceed the space allotted) Youth-based; empowerment practices that support autonomy; making a real difference in one's community, and being taken seriously. Practices that include enabling, responsibility granting, and meaningful challenge. Practices that focus on improvement rather than on relative current performance levels.</p>	<p>Our staff are trained how their impact on participants is great, that they can make a real difference in their lives, and it is imperative that their impact is a positive one. Staff will not only conduct team activities, but also give participants individual tips and skills that they can use to improve their performance. Participants that take the time to apply learned skills outside of the teen program should see marked improvement in their abilities over the course of the program.</p>
<p>Opportunities for Skill Building (Do not exceed the space allotted) Opportunities to learn physical, intellectual, psychological, emotional, and social skills; exposure to intentional learning experiences, opportunities to learn cultural literacy, media literacy, communication skills and good habits of mind; preparation for adult employment, and opportunities to develop social and cultural capital.</p>	<p>Our program provides many opportunities for skill building. Besides homework help and learning the basics of making healthy choices, the staff also teaches self-esteem building, teamwork, hard work, and a never quit attitude.</p>
<p>Integration of Family, School and Community Efforts: (Do not exceed the space allotted) Concordance; coordination and synergy among family, school and community.</p>	<p>We strive to integrate family, school, and community efforts by working with the parents to guide the participants to do well in school, and stay out of trouble in the community, so they can continue to participate in our program. We also seek parent participation to encourage strong families for strong communities.</p>
<p>Monitoring (do not exceed the space allotted) A systematic review of program based upon requirements of a contract, rules, regulations, policies and/or State and Local laws. Identifies the degree to which activities specified in a contract/application complies with requirements.</p>	<p>The Recreation Director is overall in charge of the teen program, to include staff and volunteers. However, there will be a program director responsible for the conduct of the program. The program director will attend all program sessions and give the recreation director a weekly update; at a minimum. The recreation director will periodically stop by the programs to spot-check things as well.</p>
<p>Evaluation Methods (Do not exceed the space allotted) Process to determine the value or amount of success in achieving a pre-determined program or operational goal. Evaluations can identify program strengths and weaknesses to improve the program, and verify if program is running as planned.</p>	<p>At the end of the program students are given evaluations in order to provide feedback on their experience. We read all of the evaluations and take very seriously all comments and make appropriate changes if they are warranted.</p>

One's chance of becoming a victim of either violent or property crime here is one in 21. Within New York, more than 98% of the communities have a lower crime rate than Newburgh. In fact, after researching dangerous places to live, NeighborhoodScout found Newburgh to be the 14th most dangerous city in the United States. These behaviors include substance use and abuse, sexual activity, and smoking, among others. In addition, youth who do not spend time in afterschool activities are 37% more likely to become teen parents than those who participate in afterschool programs.

AGENCY PROGRAM PROFILE

PROGRAM SUMMARY: (100 word maximum)

The HYPE program target population is boys and girls ages 11-14 years who reside in the City of Newburgh and the Newburgh Enlarged School District. The H.Y.P.E program will provide a variety of components to include homework help, mentoring, enrichment activities and daily recreation. The H.Y.P.E. (Helping Young People Excel) program is designed to enhance the positive development of youth by teaching them to avoid substance use with increasing health and wellness behaviors. These include participating in sports, physical activities and eating healthy. The program also teaches youth critical self-management skills to set and maintain a healthy mental lifestyle. H.Y.P.E is customized to each youth's individual needs by providing messages tailored to promote healthy habits and lifestyles.

8 Features of Positive Youth Development

Features of Youth Development Settings (School, Home, Community)	How does program address each Feature of Positive Youth Development Settings? (Include policies, procedures, activities)
<p>Physical & Psychological Safety (Do not exceed the space allotted) Safe and health-promoting facilities; practices that increase safe peer group interaction and decrease unsafe or confrontational peer interactions.</p>	<p>Our program offers a safe, nurturing, environment where parents can feel comfortable dropping off their children to participate in the program. We do not tolerate any unsafe behavior, fighting, bullying, etc. Our staff monitors our participants closely to make sure everyone is safe.</p>
<p>Appropriate Structure (Do not exceed the space allotted) Limit Setting; clear and consistent rules and expectations; firm enough control; continuity and predictability; clear boundaries, and age appropriate monitoring.</p>	<p>Our program is limited to middle-school age children (11-14), so there is less of a chance of injury due to older children playing with younger children. This also allows instructors and activity specialists to provide age-based classes and activities and reduces the incidents of bullying from older children to the younger ones. We have a clear set of rules and behaviors that are entrenched in our staff training, who in turn will go over the rules at their first meeting with the children.</p>
<p>Supportive Relationship (Do not exceed the space allotted) Warmth; closeness; connectedness; good communication; caring; support; guidance; secure attachment, and responsiveness.</p>	<p>All of our staff are trained to interact with all of the children. This allows staff to gain the trust of players, who in turn feel secure and cared for. However, we still enforce published rules and regulations for the good order of the program that all children must follow. All information about the program will be communicated by our staff to the children and/or parents and also posted on the program's website for wider distribution.</p>
<p>Opportunities to Belong (Do not exceed the space allotted) Opportunities for meaningful inclusion, regardless of one's gender, ethnicity, sexual orientation, or disability; social inclusion, social engagement, and integration; opportunities for socio-cultural identity formation; and support for cultural and bicultural competence.</p>	<p>The City of Newburgh is fortunate to have people from a multitude of races and cultures live within its borders. All of our programs at City of Newburgh Recreation are open to all races, religions, genders, ethnicities, and sexual orientations, without question.</p>

<p>Positive Social Norms (Do not exceed the space allotted) Rules of behavior, expectations, injunctions, ways of doing things, values and morals, and obligations for service.</p>	<p>Our HYPE program offers rules for the good order and discipline of the program, as well as the individual expectations of participants. These rules and expectations are entrenched in our staff in turn pass them on to the children during daily interactions.</p>
<p>Support for Efficacy and Mattering (Do not exceed the space allotted) Youth-based; empowerment practices that support autonomy; making a real difference in one's community, and being taken seriously. Practices that include enabling, responsibility granting, and meaningful challenge. Practices that focus on improvement rather than on relative current performance levels.</p>	<p>Our staff are trained how their impact on participants is great, that they can make a real difference in their lives, and it is imperative that their impact is a positive one. Staff will not only conduct team activities, but also give participants individual tips and skills that they can use to improve their performance. Participants that take the time to work outside of HYPE should see marked improvement over the course of the program.</p>
<p>Opportunities for Skill Building (Do not exceed the space allotted) Opportunities to learn physical, intellectual, psychological, emotional, and social skills; exposure to intentional learning experiences, opportunities to learn cultural literacy, media literacy, communication skills and good habits of mind; preparation for adult employment, and opportunities to develop social and cultural capital.</p>	<p>Our program provides many opportunities for skill building. Besides homework help and learning the basics of making healthy choices, the staff also teaches self-esteem building, teamwork, hard work, and a never quit attitude.</p>
<p>Integration of Family, School and Community Efforts. (Do not exceed the space allotted) Concordance; coordination and synergy among family, school and community.</p>	<p>We strive to integrate family, school, and community efforts by working with the parents to guide the participants to do well in school, and stay out of trouble in the community, so they can continue to participate in our program. We also seek parent participation to encourage strong families for strong communities.</p>
<p>Monitoring (do not exceed the space allotted) A systematic review of program based upon requirements of a contract, rules, regulations, policies and/or State and Local laws. Identifies the degree to which activities specified in a contract/application complies with requirements.</p>	<p>The Recreation Director is overall in charge of the H.Y.P.E. program, to include Breath of New Life Ministries's staff and youth volunteers. However, there will be a program director responsible for the conduct of the youth program. The program director will attend all program sessions and give the recreation director a weekly update, at a minimum. The recreation director will periodically stop by the programs to spot-check things as well.</p>
<p>Evaluation Methods (Do not exceed the space allotted) Process to determine the value or amount of success in achieving a pre-determined program or operational goal. Evaluations can identify program strengths and weaknesses to improve the program, and verify if program is running as planned.</p>	<p>At the end of the program students are given evaluations in order to provide feedback on their experience. We read all of the evaluations and take very seriously all comments and make appropriate changes if they are warranted.</p>

Orange County Children & Family Services Plan (CFSP) Narrative

Demonstrate the local need in the Life Area(s) you identified on the previous page. Include local data, including statistics, and cite data sources. 100 word maximum.

According to NeighborhoodScout.com, the City of Newburgh is above the national average in all violent crimes (murder, rape, assaults, and robbery). Newburgh is also a hotbed for illegal drug activity and gang violence. Children age 3-13 are prime targets for this type of destructive behavior. The City of Newburgh Recreation department has not run any youth sports programs in over 10 years. Additionally the department has virtually no equipment to run an effective program. Only those residents who have enough money to afford transportation to other towns have been able to have their children participate in youth sports. With a large number of City of Newburgh residents living in poverty, this leaves a large segment of the population not provided for recreationally. This soccer program will encompass the life areas of Physical and Emotional Health and Citizenship and focus on keeping kids off the streets, providing an environment that fosters positive interactions, and keeping them away from negative influences.

Describe your target population including but not limited to age range, gender, school district(s), community(s), risk and protective factors, and other important characteristics. 100 word maximum.

Our target population is boys and girls ages 3-13 years who reside in the City of Newburgh and the Newburgh Enlarged School District. The large majority of this population is from low income, single-parent households; who are prime targets for gangs and other negative organizations. This area has a population that is 50% Hispanic. The game of soccer is very popular with this demographic and to have no programs available to them is a shame. Additionally, sports in the Hispanic community is a family activity. Parents actively seek volunteer opportunities to coach their children and support the sports programs that they participate in.

Demonstrate how your program will address Major Theme(s) and/or Strategies outlined in the CFSP (Part III). Link specific program activities to specific themes and/or strategies. 500 word maximum.

Our soccer program focuses on keeping our players in a safe and nurturing setting that offers physical and emotional health, and an environment that enhances their citizen skills by providing opportunities to foster positive interactions with peers and adults alike. Our coaches will be positive role models for the players on their teams. The players will have practices once a week and one to two games a week both indoors and outdoors depending on the season. At the practices our coaches work on soccer skills, as well as teamwork which will help our players not only get better in the sport, but they also learn the teamwork skills that will help them in their daily lives. Players will be responsible for showing up to practices and games on time or risk losing playing time or the opportunity to play at all. Players will also be issued a league uniform that they must maintain throughout the season and will only be allowed to play in a game with that uniform.

<p>Opportunities to Belong (Do not exceed the space allotted) Opportunities for meaningful inclusion, regardless of one's gender, ethnicity, sexual orientation, or disability; social inclusion, social engagement, and integration; opportunities for socio-cultural identity formation; and support for cultural and bicultural competence.</p>	<p>The City of Newburgh is fortunate to have people from a multitude of races and cultures live within its borders. All of our programs at City of Newburgh Recreation are open to all races, religions, genders, ethnicities, and sexual orientations, without question.</p>

<p>Positive Social Norms (Do not exceed the space allotted) Rules of behavior, expectations, injunctions, ways of doing things, values and morals, and obligations for service.</p>	<p>Our soccer program offers rules for the good order and discipline of the league, as well as the individual expectations of players. These rules and expectations are entrenched in our coaching and recreation staffs who in turn pass them on to the players during practices and live game play.</p>
<p>Support for Efficacy and Mattering (Do not exceed the space allotted) Youth-based; empowerment practices that support autonomy; making a real difference in one's community; and being taken seriously. Practices that include enabling, responsibility granting, and meaningful challenge. Practices that focus on improvement rather than on relative current performance levels.</p>	<p>Our coaches and staff are trained how their impact on these players is great and that they can make a real difference in their lives, and it is imperative that the impact is a positive one. Coaches will not only conduct team practices, but also give players individual drills that they can practice outside of practice to improve their performance. Players that take the time to work outside of practice should see marked improvement over the course of the program.</p>
<p>Opportunities for Skill Building (Do not exceed the space allotted) Opportunities to learn physical, intellectual, psychological, emotional, and social skills; exposure to intentional learning experiences, opportunities to learn cultural literacy, media literacy, communication skills and good habits of mind; preparation for adult employment, and opportunities to develop social and cultural capital.</p>	<p>Our soccer program provides many opportunities for skill building. Besides learning the fundamentals of soccer, the coaches also teach teamwork, hard work, and a never quit attitude.</p>
<p>Integration of Family, School and Community Efforts (Do not exceed the space allotted) Concordance, coordination and synergy among family, school and community.</p>	<p>We strive to integrate family, school, and community efforts by working with the parents to guide the players to do well in school, and stay out of trouble in the community, so they can continue to play in our program. We also seek parent-coaches as much as possible and have a strong working relationship with the school district athletic director.</p>
<p>Monitoring (do not exceed the space allotted): A systematic review of program based upon requirements of a contract, rules, regulations, policies and/or State and Local laws. Identifies the degree to which activities specified in a contract/application complies with requirements.</p>	<p>The Recreation Director is overall in charge of the soccer program, to include all of the staff and coaches. However, there will be a recreation coordinator responsible for the conduct of the soccer program. The recreation coordinator will attend all program sessions (practice/games) and give the recreation director a weekly update, at a minimum. The recreation director will periodically stop by the programs to spot-check things as well.</p>
<p>Evaluation Methods (Do not exceed the space allotted) Process to determine the value or amount of success in achieving a pre-determined program or operational goal. Evaluations can identify program strengths and weaknesses to improve the program, and verify if program is running as planned.</p>	<p>At the end of the program coaches, parents and players are given evaluations in order to provide feedback on their experience. We read all of the evaluations and take very seriously all comments and make appropriate changes if they are warranted.</p>

Orange County Children & Family Services Plan (CFSP) Narrative

Demonstrate the local need in the Life Area(s) you identified on the previous page. Include local data, including statistics, and cite data sources. 100 word maximum.

With a crime rate of 48 per one thousand residents, Newburgh has one of the highest crime rates in America compared to all communities of all sizes - from the smallest towns to the very largest cities. One's chance of becoming a victim of either violent or property crime here is one in 21. Within New York, more than 98% of the communities have a lower crime rate than Newburgh. In fact, after researching dangerous places to live, NeighborhoodScout found Newburgh to be the number 14 most dangerous cities in the U.S.A. With respect to violent crimes, NeighborhoodScout found that Newburgh's violent crime rate is one of the highest in the nation, across communities of all sizes (both large and small). Violent offenses tracked included rape, murder and non-negligent manslaughter, armed robbery, and aggravated assault, including assault with a deadly weapon. According to NeighborhoodScout's analysis of FBI reported crime data, your chance of becoming a victim of one of these crimes in Newburgh is one in 68.

Describe your target population including but not limited to age range, gender, school district(s), community(s), risk and protective factors, and other important characteristics. 100 word maximum.

Our target population is boys and girls ages 6 - 18 years old who reside in the City of Newburgh and the Newburgh Enlarged City School District. The large majority of this population is from low income, single-parent households, who are prime targets for gangs and other negative organizations.

Demonstrate how your program will address Major Theme(s) and/or Strategies outlined in the CFSP (Part III). Link specific program activities to specific themes and/or strategies. 500 word maximum.

Our basketball programs focus on keeping our players in a safe and nurturing setting that offers physical and emotional health, and community involvement by having them learn and play the game of basketball. Our coaches encouraged to be positive role models with the players on their teams. The players will have practices once a week and one to two games a week both indoors and outdoors depending on the season. At the practices our coaches work on basketball skills, as well as teamwork which will help our players not only get better in the sport, but they also learn the teamwork skills that will help them in their daily lives. Players will be responsible for showing up to practices and games on time or risk losing playing time or the opportunity to play at all. Players will also be issued a league uniform that they must maintain throughout the season and will only be allowed to play in a game with that uniform. Coaches will serve as positive role models for the players and mentor them through tough times on and off the court. They will assist players with conflict resolution and effective decision making.

8 Features of Positive Youth Development

Features of Youth Development Settings (School, Home, Community)	How does program address each Feature of Positive Youth Development Settings? (Policies, procedures, etc.)
<p>Physical & Psychological Safety (Do not exceed the space allotted) Safe and health-promoting facilities; practices that increase safe peer group interaction and decrease unsafe or confrontational peer interactions.</p>	<p>Our basketball programs offer a safe, nurturing, environment where parents can feel comfortable dropping off their children to participate in the programs. We do not tolerate any unsafe behavior, fighting, bullying, etc. Our coaches and staff monitor our players and spectators closely to make sure everyone is safe.</p>
<p>Appropriate Structure (Do not exceed the space allotted) Limit Setting; clear and consistent rules and expectations; firm enough control; continuity and predictability; clear boundaries, and age appropriate monitoring.</p>	<p>Our basketball programs are broken down by age so there is less of a chance of injury due to older players playing with younger players, as well as reduced chance for bullying from older players to the younger players. We have a clear set of rules and behaviors that are entrenched in our coaches in their training, who in turn will go over the rules at their first practice. These rules are then enforced by Recreation Staff and referees throughout the season.</p>
<p>Supportive Relationship (Do not exceed the space allotted) Warmth; closeness; connectedness; good communication; caring; support; guidance; secure attachment, and responsiveness.</p>	<p>All our Recreation Staff and coaches are trained through the National Association of Youth Sports (NAYS) to interact with all of the players gaining their trust so each player feels secure and cared for, but at the same time they know there are rules and they have to be followed. All information about the basketball program will be communicated by coaches to the players and/or parents and also posted on the program's website for wider distribution.</p>
<p>Opportunities to Belong (Do not exceed the space allotted) Opportunities for meaningful inclusion, regardless of one's gender, ethnicity, sexual orientation, or disability; social inclusion; social engagement, and integration; opportunities for socio-cultural identity formation; and support for cultural and bicultural competence.</p>	<p>All of our programs at the City of Newburgh Recreation are open to all races, religions, genders, ethnicities and sexual orientations.</p>

<p>Positive Social Norms (Do not exceed the space allotted) Rules of behavior, expectations, injunctions, ways of doing things, values and morals, and obligations for service.</p>	<p>The basketball programs all offer rules for the good order and discipline of the league, as well as the individual expectations of players. <p>Support for Efficacy and Mattering (Do not exceed the space allotted) Youth-based; empowerment practices that support autonomy; making a real difference in one's community, and being taken seriously. Practices that include enabling, responsibility granting, and meaningful challenge. Practices that focus on improvement rather than on relative current performance levels.</p>	<p>Our coaches and staff are trained how their impact on these players is great and that they can make a real difference in their lives, and it is imperative that the impact is a positive one. Coaches will not only conduct team practices, but also give players individual drills that they can practice outside of practice to improve their performance. Players that take the time to work outside of practice should see marked improvement over the course of the program.</p>
<p>Opportunities for Skill Building (Do not exceed the space allotted) Opportunities to learn physical, intellectual, psychological, emotional, and social skills; exposure to intentional learning experiences; opportunities to learn cultural literacy, media literacy, communication skills and good habits of mind; preparation for adult employment, and opportunities to develop social and cultural capital.</p>	<p>Our basketball programs give many opportunities for skill building. <p>Integration of Family, School and Community Efforts. (Do not exceed the space allotted) Concordance; coordination and synergy among family, school and community.</p>	<p>We strive to intergrate family, school and community efforts by working with the parents to guide the players to do well in school, and stay out of trouble in the community, so they can continue to play in the program. We also seek parent-coaches as much as possible and have a strong working relationship with the high school varsity basketball program.</p>
<p>Monitoring (do not exceed the space allotted) A systematic review of program based upon requirements of a contract, rules, regulations, policies and/or State and Local laws. Identifies the degree to which activities specified in a contract/application complies with requirements.</p>	<p>The Recreation Director is overall in charge of the basketball program, to include all of the staff and coaches. Recreation Director gets weekly reports from the Recreation Staff on how each program is running, and will periodically stop by the programs to spot-check things as well.</p>
<p>Evaluation Methods (Do not exceed the space allotted) Process to determine the value or amount of success in achieving a pre-determined program or operational goal. Evaluations can identify program strengths and weaknesses to improve the program, and verify if program is running as planned.</p>	<p>At the end of the program parents and players are given evaluations in order to provide feedback on their experience. We read all of the evaluations and take very seriously what their comments were and make appropriate changes if they are warranted.</p>

IN WASHINGTON'S SHADOW

This project focuses on the history of the Alsdorf family, the A.M.E Zion Church and a Colored School. The objective of the project is to set up permanent walking tour with six sites that will allow anyone to learn different aspects of the lost African American history in Newburgh. A few of the sites are located on Washington Street, such as the A.M.E Zion Church. I believe the title, In Washington's Shadow represents this project because the history and significant of Washington's Headquarters (also on Washington Street) tends to overshadow other historic events and places.

Our Mission

The Sound and Story Project of the Hudson Valley is a non-profit organization whose mission is to strengthen community through the power of listening. We believe by sharing the stories of ordinary people we can help each other become more aware of our own history and more connected to each other and the place where we live.

Our stories come from many places. Some are in library and museum oral history collections. Some come from recordings we have made. Some have been found by people like you in shoe boxes in the backs of closets. And some have yet to be told. Share with us your story or favorite sound of the Hudson Valley.

The Sound and Story Project of the Hudson Valley is a program of the World Sound Foundation, a tax exempt non-profit organization.

Director/Producer

Eileen McAdam fell in love with sound recording about 5 years ago when she first put on a pair of headsets, held a microphone in her hand and pushed that little red record button. A whole new world opened up to her and she has not stopped recording since. She began recording ambient sound and the stories of some of the old timers in her rural town of Stone Ridge, NY. She learned how to do sound editing and production while producing personal audio profiles that she gave to families as gifts. The interest and gratitude that these gifts received propelled her to take her hobby to the next level by starting the Sound and Story Project.

Jim Metzner has produced more than 4,000 short-format radio programs since 1979, winning over a dozen broadcasting awards, including the Public Radio Program Award from the Corporation for Public Broadcasting, the Grand Award at the International Radio Festival of New York, and a Silver Medal from the United Nations. Jim's weekday radio series, Pulse of the Planet, provides its listeners with a two-minute sound portrait of planet earth and is heard worldwide by a million listeners a week on 180 broadcast outlets, including WAMC-FM in New York's Hudson Valley.

More on the Project

This project is made possible through a grant I received through an organization called Open Space Institute. Each year the organization gives grants to undergraduate and graduate students in different areas such as conservation and historic preservation. The area I chose was historic preservation. For this project I also partnered with another organization called Sound and Story. This organization helps individuals as well as institutions verbally record their history in order to share with others. Sound and Story also creates signs to put in historic areas to allow people to learn about the historic importance of the area. These signs are unique because they have a number you can call which allows anyone with a phone to listen to the recordings they choose to share. There are already a few Sound and Story signs in Newburgh. Two of these signs can be found at the foot of Broadway overlooking the Hudson River and the Ritz Theatre also located on Broadway. This project has been in the works for almost a year. Due to the help of many different individuals (Open Space Institute, Director of Sound and Story Eileen Mcadams, City Historian Mary McTamany,

Manhattanville Professor Collin Morris, Manhattanville Student Travis Clarke) I have come up with five scripts and five recordings of these scripts.

The Alsdorf Academy Script

Location: 93 Liberty Street

1] You're standing in front of the site of the former Alsdorf's Hall School of Music and Dancing built in 1915.

2] This grand building was adjoined to the Alsdorf Dancing Academy

Bring up music softly: Serenade Blues

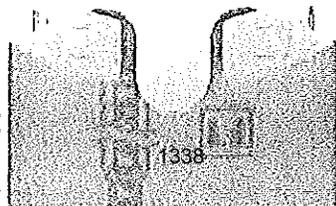

3] Those are the historic vibrations from over 100 years of music echoing from this location. From 1849 until it closed in 1952, Newburgh's residents studied music and dance at 93 Liberty Street.

4] While the oldest son, Charles operated the old Alsdorf Dancing Academy, his younger brothers, Ulysses and Simon operated the newer Alsdorf's Hall School of Music and Dancing.

5] Although the Alsdorf family began life in the Hudson Valley as slaves, their entrepreneurial energy and many talents made them on of the wealthiest African American family in Newburgh.

6] Newburgh City Historian Mary McTamaneay describes the Alsdorf legacy:

"They seemed to have come with many talents in the family group. If you got them all around the thanksgiving table it would have been amazing to watch

what each of them were skilled at....It wasn't that the whole family was musicians or the whole family was you know a catering business as many families that rose to power were. They had multiple talents so that's one of the things that is interesting in their story."

7] The Alsdorfs' talents allowed them to overcome deep racial prejudice to build a successful music and dance academy.

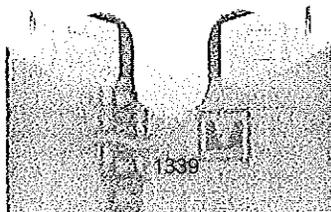

8] If you lived in the Hudson River Valley back in the late 1800s, chances are you were taught by one of the Alsdorf brothers.

9] Boys, girls, men and women wearing tuxedos and formal gowns attended their grand galas and charity balls.

10] In 1952 the last Alsdorf brother Ulysses died and the academy closed, but there are still a few folks alive today who may remember taking lessons from one of the famed Alsdorf brothers.

The Alsdorf House Script

Location: 260-262 Washington Street

1] Narrator: Did you know that at one time New York State had more slaves than Georgia?

2] And the largest concentration of slaves was right here in the Hudson Valley.

(Bring up music) I have a home in Egypt

3] One of these slaves was George Alsdorf, who became a free man in 1827.

4] In less than 20 years he purchased a home here at 260-262 Washington Street.
Newburgh city historian Mary McTameny:

When NY codified the end of slavery,

6] That would have been in 1827

those that had been working on farms enslaved and had skills that could be translated into self-sufficient work, often came to towns like Newburgh. You could hang up your sign and be in business for yourself because the community was growing very quickly in the 19th century and it was a good choice to come here.

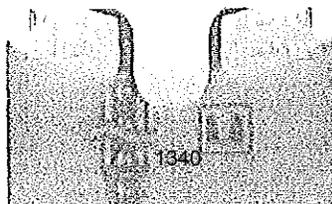

7] Mr. Alsdorf saw the opportunity a booming city like Newburgh offered and he and his family soon opened a men's clothing store, a catering business, a bakery, a tailoring shop, and a ladies hair salon and eventually a music academy.

8] Soon the Alsdorfs became one of the wealthiest African American families in the city.

9] In 1849, his son Dubois opened a music academy in Newburgh.

If you were to take the two dozen famous Newburgh families they would be one of them. The Alsdorfs were the groundbreaking African American family in Newburgh.

10] But although the Alsdorf family was well known in and around Newburgh, there was one thing about them very few knew. Local Underground Railroad Superintendent Wilmot Vail

"At Newburgh there was a colored man named Alsdorf, of a family of musicians who provided for and concealed fugitives until an opportunity came to send them north." (Wilmot M. Vail)

11] For Mr. Alsdorf having his own freedom was not enough.

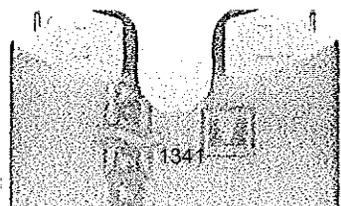

12] He and his family risked everything they had worked hard to achieve by providing a safe house for freedom seeking slaves from the south.

13] They were part of a secret network of stops along the Underground Railroad.

"If the party was closely pursued by his owner and a U.S. Marshal, we sent him in the opposite (direction toward) Newburgh, where Alsdorf took care of him."
(Wilmot M. Vail)

The AME Zion Church

Site: 109 Washington St, Newburgh, NY 12550

Music: I got a long white robe in Zion

1] You're standing in front of the very first African American Church in the city of Newburgh.

2] For over 185 years the American Methodist Episcopal - AME - Zion Church has served as a vital center to the African American community. Pastor, Milton Stubbs:

We have been a pillar in this community all these years and now and if we don't tell the story and let Newburgh know about it there is going to be forgotten history as in some of our other churches. That's why I think it is important that we recapture that history and bring it to life so that Newburgh will know the impact that we have had not only know but in the previous years of existence.

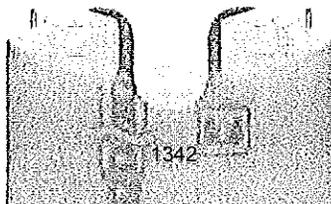

3] The Church's 185 year history has not been without struggle.

4] On December 31st 1860 the nation was on the brink of Civil War.

5] Congregants of the AME Zion church gathered for their traditional New Year's Eve Watch Meeting - a special service to give thanks for another year.

6] While they prayed peacefully, rioters attacked the church, broke down the door and vandalized the property.

7] Local authorities arrested the attackers and fined them 100 dollars each.

8] Then, two years later, on New Year's Eve, 1862, the Newburgh AME Zion congregants joined churches all over the country to give thanks and hold vigil. On the next day January 1st 1863, President Lincoln's historic Emancipation Proclamation freeing all slaves was to become law.

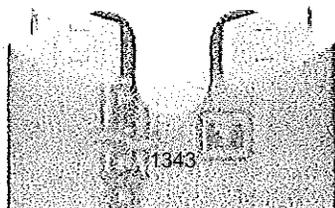

9] But rioters once again attacked the peaceful Watch Night Service. This time soldiers raced to the scene and dispersed the rioters.

10] For nearly two centuries the AME Zion Church has been the center of faith and community for many Newburgh residents. Pastor Stubbs:

I tell people that the church is a spiritual hospital where the wounded comes to be revived, to have hope restored. This is where we welcome all people of faith whether you have a suit on or whether you got blue jeans, whether you have holes in your shoes or holes in your pants, everybody is somebody and that the motto that we use That everybody is somebody in this church.

The Newburgh Colored School

Site: Washington Street and Route 32 (former Snakehill Road)

Music: instrumental intro to nobody knows the trouble I've seen

1] If you were an African American child living in Newburgh around 1849 and were fortunate enough to go to school, you attended The Colored School located here on Washington Street and Snakehill Road, known today as route 32.

2] Until 1873 it would have been the only school in Newburgh you were allowed to attend.

3] Little information survives about the Colored School.

4] But from an old Newburgh City Directory and other historic documents, here are the few facts we could verify.

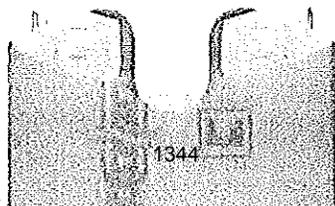

5] The one room school house usually had just one teacher.

6] From 1860 to 1865 that teacher, Elizabeth Waters was an African American woman - unusual for the time since it was difficult for black women to attend schools of higher education and train as teachers.

7] Ms. Waters was also an activist and abolitionist.

8] She and Newburgh Baptist preacher, Elisha Hawkins, gave anti-slavery lectures through-out the Hudson Valley.

9] Private donations provided 100 percent of the school's support before it became incorporated into the city school district.

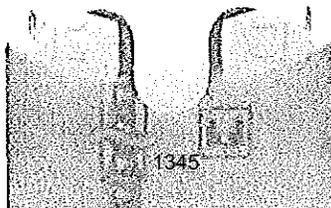

10] The Reverend Joseph P Thompson of the AME Zion Church down the street on Washington Street, was it leading trustee, the wealthy African-American Alsdorf family were dedicated benefactors.

11] Then in 1873, when most schools through-out the state and country were still segregated, Newburgh's Board of Education made the ground-breaking decision to integrate Newburgh's public grammar schools.

12] After 24 years of operation, the Colored School was officially closed and the African American children were integrated in Newburgh's surrounding grammar schools.

Desegregation in Newburgh and the Closing of the Colored School

Site: Corner of Grand Street and Campbell Street

Music: If I had my way I would tear the building down

1] In 1873 an historic civil rights battle was fought and won in Newburgh due largely to the efforts of one prominent black citizen, Dubois Alsdorf.

(Bring up music) If I had my way I would tear the building down

3] It would be more than eighty years before the Supreme Court would rule all segregated schools unconstitutional.

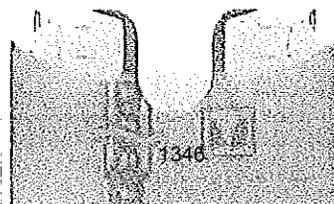

4] But Dubois Alsdorf, the son of a former slave, was determined that his children would have the same education as white children in Newburgh.

5] So he did a remarkable thing - he petitioned the city's Board of Education to admit his three sons to the all-white Grammar School #1.

6] He based his argument on the federal Civil Rights Act of 1865 that guaranteed the equal protection of all citizens.

7] In fact, he included a full copy of the Act. He was not just fighting for his own children, but all the African American children in Newburgh.

8] He sought to establish a binding precedent for the complete desegregation of the city's public schools.

9] The Board of Education's Committee on Laws deliberated on the petition and was divided in its opinion.

Male Voice: I believe the colored children can be better instructed, more of them will attend school, and they will be happier and freer from annoyances and petty persecutions in a school by themselves than in a school of mixed black and white pupils."

10] Despite strong opposition by two committee members, the Board's majority was clearly persuaded by Dubois Alsdorf's argument. In a 6 to 2 vote the following resolution was formally passed:

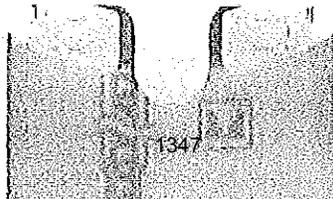

Male Voice: Resolved that the school heretofore set apart for colored children be discontinued, and all children of the proper school age be admitted to the schools of the city "without regard to race, color or previous conditions of servitude."

11] In the end, the colored children that attended the colored school were dispersed to the different grammar schools in Newburgh.

12] The three Alsdorf children would also go on to be the first African American's to attend the once prestigious Newburgh Academy after Dubois Alsdorf petitioned to have them join the school.

13] The Colored School officially closed in 1873 and the children of Newburgh – black and white attended the same grammar schools thereafter.

Re: Notice of Public Nuisance:
Newburgh Armory Unity Center / Rodeo Tierra Caliente

Ms. Kelson:

Please be advised that I represent a contingent of home owners and residents in the City of Newburgh and Town of New Windsor vicinity. Upon the request of my clients, I wish to inform you over their ongoing problems with the usage of the Newburgh Armory on South William Street by persons believed to be the Rodeo Tierra Caliente or other tenants/guests/invitees.

As per my clients, the Rodeo has events at the Armory for most of the day and into evenings on most Sundays during warmer months. All last year and already beginning this season, persons conducting the Rodeo use amplified sound equipment that is turned up to such unreasonably loud levels that it can be heard from miles away – and is heard almost all day long. As per my clients, the incessant screaming into the loudspeakers is so loud and pervasive that an ordinary conversation in one's own back yard has become impossible – again, at locations several miles away. It seems clear that the sound amplification is well beyond any reasonable or legal decibel level.

Scores of complaints have been continuously made to the police, yet this nuisance persists unabated nearly every Sunday. It appears the persons conducting the Rodeo go on without any reprimand or repercussions.

My clients ask that the City of Newburgh immediately force its tenants, clients, and guests to comply with legal decibel limits. Should the Armory fail to enforce such policies, my clients fully intend to pursue every available legal avenue.

While the Armory may do many wonderful things for the community, surely its staff must consider the needs and rights of *all* members of the local community, especially its neighbors' rights to the peaceful use and enjoyment of their own properties.

As an aside, considering the City of Newburgh's focus on quality of life issues as aggressively pursued against private landowners, it is somewhat disturbing to see what the City permits on its own properties.

Should you have any questions, please don't hesitate to contact my office. I thank you in advance for the City's prompt attention to the matter.

Yours,

Mr. Michael G. Ciaravino
Newburgh City Manager

Dear Mr. Ciaravino,

Re: Application for Building Permit

I am writing in order to formally request that a building permit application be considered by yourself and the City of Newburgh Council during the next City Council Meeting on July 11, 2016. The proposed structure would be a 30 x 60 storage shed, which would be used to keep a variety of materials related to the facility's soccer field and grounds maintenance.

This project has been estimated to cost \$48,000. Therefore, being that this project is over \$10,000, the Newburgh Armory Unity Center is requesting that this project be considered by the City Manager and City of Newburgh Council as soon as possible.

The Newburgh Armory Unity Center is a place where community members of all ages may come together for educational, athletic and civic opportunities, in order to engage with others and advance our community.

This structure will allow the Newburgh Armory Unity Center to effectively store necessary items for the usage parts of the facility, as well as maintain the grounds. As I am sure you are aware, the funds obtained through the rental facilities at NAUC will go directly towards educational programs for youth and families in the city of Newburgh. The items to be stored need to be protected from the winter elements. Therefore, it is requested that this application be considered at your earliest convenience. Thank you for your time and consideration.

Sincerely,

Robert Pagliaro
